LAUNDRY PLANT OPENS MONDAY; 30 EMPLOYEES Rush of Work Indicates Success for New Industry

FIRST WASH DONE TUESDAY

Antioch's newest industry, the Chain O' Lakes Laundry & Dry Cleaning company, opened its doors for business here Monday morning with a working force of 30 employees.

Abundance of work piled up, washers, tubs, dryers, and ironers were tested out, and minor alterations and adjustments made to have all in readiness for the first actual working operation of the plant Tuesday.

General Manager E. A. Grutzmacher expressed himself as being very well pleased with the prospective business as indicated by the first rush of work, and G. E. Orr, efficiency engineer, gave assurance that minor mechanical difficulties, involving the steam supply and correct operation of the big oil burner, would soon be adjusted and the plant would be operating at the height of efficiency.

Experienced Help Employed
Among the 30 employees are experts in every department who are directing the work and teaching the various operations to those of less experience. The employment of those of long experience and the latest machinery, together with the fact that the water supply is the best to be found in the state, gives assurance that the local plant will give the highest quality service from the start.

"We favor employing local help in so far as is possible," General Manager Grutzmacher told a group of business men this week, explaining that the new industry is exclusively a Chain O' Lakes institution. Successful operation, he declared, demands that expert laundry workers be employed in each department.

(Mr. Grutzmacher was referred to as superintendent of the laundry in last week's edition of the News, and G. E. Orr was mentioned as financial engineer. Mr. Grutzmacher's correct title is that of general manager, while Mr. Orr is acting in the capacity of efficiency engineer.)

BUSINESS CLUB PLANS ELECTION OF OFFICERS; LADIES' NIGHT JUNE 23

Small Attendance and Little Business Done at Meet Monday Night

Small attendance at the advertised meeting and dinner of the Antioch Business club Monday night at Clark's Cafe caused the meeting to be adjourned without the transaction of any important business or the annual election of officers, stated as the main purpose of the gathering. It was planned to have the election on the night of June 23 when the meeting and dinner will be held in St. Peter's new hall. This will be ladies' night and there will be entertainment and music.

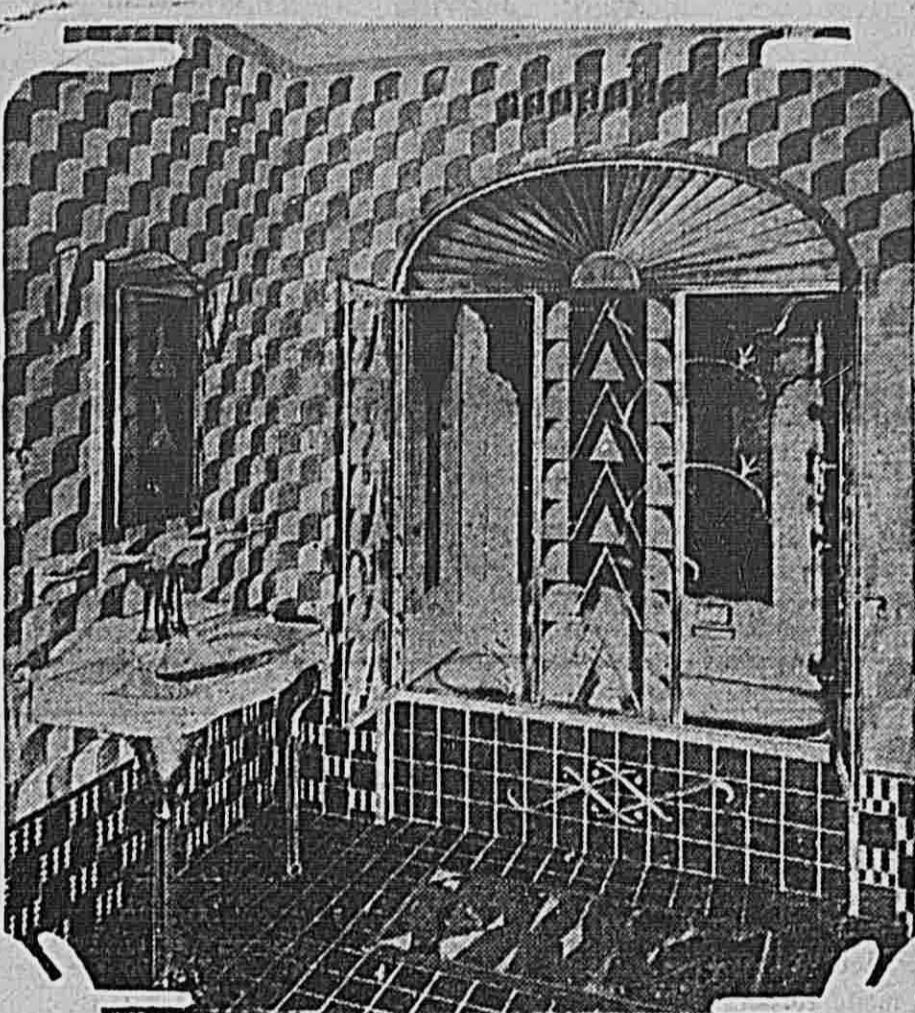

Glenna Roberts, Local Girl, Receives Honors at University of Illinois

Miss Glenna Roberts, who has just completed her junior year at the University of Illinois, this year has won a number of honors in the field of athletics. During the year she made four first teams, hockey, basketball, swimming and track; she was also named as a Varsity member of both hockey and swimming teams.

She was presented the silver loving cup of the Women's Group System at the University for signal achievement in the line of athletics.

Miss Roberts also was made a member and secretary-treasurer of Alpha Sigma Nu, honorary athletic organization for women. Two other Antioch girls, Miss Beulah Drom and Miss Cornelia Roberts, have been members of this organization.

Finest Bathroom in United States

America's finest bathroom, according to the decision of the judges in a contest conducted at the national convention of the Tile and Marble Manufacturers' Association of America, held recently at New Orleans, is the private bathroom of Irwin S. Chanin, in New York.

UNEMPLOYMENT NOT SERIOUS IN ANTIOTH, CENSUS SHOWS

Only 49 in Township Unemployed, Census Supervisor Reports

Unemployment in the Village of Antioch and in Antioch township is not a serious problem, according to a preliminary announcement of unemployment returns just released by Estelle Northam, supervisor of census.

According to the report, only 19 persons were out of work, that number representing only those persons without a job, able to work and looking for a job. In the township outside the village, 30 were unemployed, according to the census figures, and in Lake Villa only 7 were unemployed.

Orchestra Classes To Be Formed For The Summer

High school students, especially the incoming freshmen are urged to take up orchestral instruction. It is hoped that enough will wish to begin so that small groups may be started in the violin, cello, clarinet, etc., within a few days. There will be no charge for lessons for those who are in the groups. The school has cellos, viola, bass violins, oboe, bassoon, French horn, saxophone drums, xylophone, trombone, and piccolo that may be used thus eliminating the expense of an instrument.

Those who may be interested in learning to play will meet at the high school next Monday at 10:30. Mr. Von Holwede is now spending two days at the high school giving private lessons and arrangements for the group work will be made as soon as classes are formed.

Annapolis Honor Man

Andrew McBurney Jackson, Jr., of Baton Rouge, La., is the honor man of this year's graduating class at the Annapolis naval academy. He was star man of his class during the entire four years, attaining an average of 900.17 out of a possible 1,000.

County Superintendent Grants Eighth Grade Pupils County Diplomas

Two hundred fifty-nine students of the rural and village schools were granted their diplomas by County Superintendent T. A. Simpson.

The Antioch school held its own exercises and granted its own diplomas and are not included in the above number.

Those who will be eligible to enter high school next fall from this community are listed with the name of school and teacher:

Hickory School Anna Drom, teacher

Grace Ida Pedersen Marion Anna Nielsen, Paul Nielsen, Margaret Wolz, Margaret Lucille Pullen.

Oakland School Mildred Byrnes, teacher Ruth Hughes, Joe Frank Herman, Katherine Kusko.

Emmons School Louise Sheehan, teacher Kenneth Charles Hills, Josephine A. Sterbenz, Orville Hawkins, Bean Hill School Marlon Winters, teacher Russell E. Hunter, Ward Wilton, Howard A. Wells.

Cedar Lake School Elizabeth Lawler, teacher Melvin Earl Christiansen.

Lotus Country School Nettie Feinberg, teacher Raymond Henry Adams, Earl Toman, Arthur Charles, Otto Schueman, Frank Charles Fichtar.

Channel Lake School Mrs. Grace Dickson, teacher Henry E. Pape, Robert Smith, Charles Rudolph.

Grass Lake School Mrs. Ruby Wood, teacher Louise Smith, Louise M. Rother, Harry Stott.

Lake Villa School Nathan Mohar, teacher Delbert L. Sherwood, Eileen K. Philippi, Charlotte S. Meyer, John K. Cribb, Jr., Helen R. Butcha, Howard Tom Brompton, Alice Louise Koelstra, James H. Sykes, Madeline A. Meyer.

Monaville School Marguerite Hefferman, teacher Willard W. Schneider, Jennie Martines, Nellie Veronica Martines.

McHENRY COUNTY SHOWS INCREASE

Although many cities and villages in McHenry county have lost in population since the 1920 census the county as a whole shows a gain of about five per cent. McHenry county has a population of 35,061, according to the census returns as of April 1, 1930, as compared with 33,164 ten years ago, a gain of 1,897. There are 3,005 farms enumerated in this county, an increase of 1,476 accounts for a large part of the county increase.

Boone county has a population of 15,069, as compared with 15,322 ten years ago, a loss of 253. There are 1,169 farms listed in Boone county.

Winnebago county has a population of 118,301, as compared with 90,929 ten years ago, a gain of 27,372. There are 2,006 farms in Winnebago county.

There are now 42,000 buses operated for students in 16,500 rural consolidated schools, according to the Chicago Motor club.

COUNTY POPULATION 103,350; INCREASE OF 40 PERCENT IN DECADE

Census Assures Pay Increase to County Officers

The population of Lake county is 103,350, figures released by Mrs. Estelle Northam, census supervisor, show.

While this figure was released as an "unofficial estimate," the census supervisor declared that the final figure will not vary from that by more than a thousand.

40 Per Cent Increase

Lake county's population in 1920 was 74,167, which shows a 40 per cent increase for the county as a whole during the ten year period. The census supervisor announced that the figure will be changed slightly within the next two weeks as coupons from those missed by the census takers trickle into the office. The final figure, however, she declared, will not exceed 105,000 persons.

The largest component in Lake county's growth was the phenomenal growth of Waukegan, which shows a present population of 33,434, with a 74 per cent increase. Highland Park shows an increase of 83 per cent in the last ten years, the highest increase in the county, but the figures have only a small bearing on the total results.

Population figures on other major cities in the county show:

Zion	5,995
Mundelein	1,007
Grayslake	1,119
North Chicago	8,495
Highland Park	11,305
Lake Forest	6,137
Lake Bluff	1,411
Highwood	3,625
Antioch	1,090
Libertyville	3,787
Lake Villa	357

The official announcement that the county is at least over 100,000, opens the way for pay increases for county officers, it was pointed out, if the county board sees fit to vote them in, in accordance with the state statutes.

Under this population classification the county and probate judges and states attorney are entitled to a boost from \$5,000 to \$6,000 annually and the circuit clerk, probate clerk, recorder, county clerk, and county treasurer \$4,000 yearly instead of \$3,500.

Must Wait a Term

County Clerk Lew A. Hendee stated that it was his interpretation that the salaries would have to remain the same until a new term of office started. That would be the first Monday in December when the probate judge, county judge, probate clerk, county clerk, and treasurer take office. If this interpretation is correct then the circuit clerk and recorder would not be eligible for an increase for two years when a new term starts.

The chance of the board taking action at the June meeting is remote because the preliminary official figures will not be ready for them at that time as Washington will not have had the opportunity to get the census to the board, it is believed.

MRS. ANNA JURCHIK, PETITE LAKE RESIDENT, IS DEAD AT SEVENTY

Aged Woman Is Laid to Rest in Grass Lake Cemetery Monday

Mrs. Anna Bennigsen Jurchik, wife of the late John Jurchik, died Thursday in a Chicago hospital, following a few weeks illness.

Mr. and Mrs. Jurchik were residents at Petite lake for over 21 years. The husband died a few years ago. No children survive.

The remains were brought to her late home where funeral services were held Monday and interment was made in Grass Lake cemetery.

JOHN STANTON CAN STAY IN U. S. HIS MOTHER DECLARES

John Pershing Stanton of Ingleside will not need to go to France to live, according to his mother, Mrs. Henrietta Stanton Berry, who is visiting her family in Bordeaux, France.

Zion Asks That Town of Benton Be Divided INDEPENDENTS OPPOSED

The city of Zion officials have petitioned the County Board of Supervisors to divide the town of Benton forming a new town contiguous with the Zion City limits. The independents oppose the move. Winthrop Harbor is keeping quiet. If the division is made Winthrop Harbor will hold the power in Benton. Zion claims there will be no added expense in that the city and town governments will be the same.

STRATTON'S OFFICE SHOWS INCREASE IN AUTO FEES COLLECTED

Revenue Is Nearly Two Millions More Than Last Year

Springfield, Ill., June 12—Fees collected by the Secretary of State in the first five months of 1930 show an increase of \$1,730,297.15 over the same period last year, the accounting department of Secretary of State William J. Stratton's office announced.

Total collections up to May 31 this year were \$17,784,291.11 as compared with \$16,053,994.69 for the same period of 1929.

The collections of the automobile department alone aggregated \$17,037,425.73, an increase of \$1,643,077.18 over the first five months of last year. Collections of the corporation department were \$96,195.38, an increase of approximately \$100,000.

The large increase in the collections of the automobile department results from the purchase of license plates for 66,941 more automobiles than were operated in the state last year. Practically all of these may be classed as new cars. To date this department has licensed 1,292,092 passenger cars and 183,653 trucks. Last year the passenger car registration was 1,234,711 and that of trucks, 174,093.

Chaffeur registration up to May 31 was 88,032, an increase of 6,320 over the five month period in 1929. Dealers decreased from 4,378 to 4,160. Motorcycles increased 500.

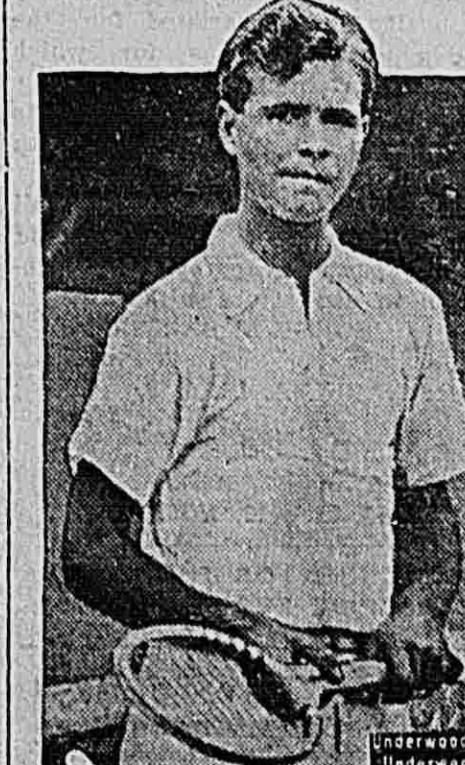

BOARD TO CONSIDER SANITARY REPORT AT SPECIAL MEETING

Consideration of the state sanitary engineer's report of the septic tank will come before the village board of trustees at a special meeting to be called when inspection of the local sewage disposal plant is made, according to Mayor George B. Bartlett. The inspector was expected to have his report ready not later than Friday.

Frank R. King and sons, Robert and Ray, and daughter, Winnie, departed Wednesday afternoon for a week's vacation trip to the woods of Northern Michigan.

Mr. and Mrs. Roger Dardenne of Chicago were dinner guests Wednesday with Mr. and Mrs. S. Boyer Nelson. The afternoon was spent golfing at Our Country club.

Member of Davis Cup Team

Johnny Doeg of Santa Monica, Calif., who recently participated in the Orange Lawn Tennis club golden jubilee held at South Orange, N. J., is going abroad with the United States Davis cup team.

POULTRY SHOW GIVEN STATE AID BY COUNTY BOARD

Antioch-Lake Villa Poultry and Country Fair in October

The Antioch-Lake Villa Poultry and Country Fair association will receive the state aid, generally given the Lake County Fair association, for its seventh annual fair to be held in October, by the action of the Board of Supervisors recently.

The board adopted a resolution offered by Supervisors William A. Rosing and C. J. Wright, asking that the Antioch association be given the state aid since the Lake county organization will not hold a fair this year.

This action was necessary before any organization in Lake County could hope to participate in the state aid.

D. H. Minto, President of the Poultry association and C. L. Kutil, secretary, appeared before the board and made the appeal.

The local fair association expects to branch out and will perhaps include all sorts of exhibits except large livestock.

Committees have been appointed and as soon as final arrangements are made with the State Director of Agriculture, everything will be in readiness to go to work on a Greater County Fair in Antioch.

Public Service Continues Policy of Lamp Renewal

That the reduction in rates for residential electric service, announced last week by the Public Service Company of Northern Illinois to be effective on August 1, will not alter the company's policy on the renewal of lamps at concessionary prices to regular users of residential service was confirmed by W. J. Anderson, local manager.

In spite of the fact that the new rate is a reduction for electric service to household users, the company will continue to renew 60 and 100 watt lamps without charge and other standard sizes at prices considerably below retail. Residential customers coming onto the company's service for the first time will also continue to be served under this arrangement, according to Mr. Anderson.

AVON HIGH SCHOOL BOND ISSUE IS DEFEATED AGAIN

For the second time in less than a year voters in the Town of Avon defeated an \$80,000 bond issue to provide a high school building for the Round Lake, Grayslake and Hainesville area.

This time the issue lost in three out of the four polling places with Grayslake being the lone spot to carry the issue. The idea was born there and the three sites suggested on the ballot all were close to Grayslake. These were voted down also.

ALADDIN'S MODERN LAMP

Some ten years ago a few hundred thousands of young men were filtering their way back to this country from their pilgrimage abroad. Brought with them was the realization of the progress of America. From months spent in England from the Continent, from Asia, from many countries, different ones were bringing different stories, but their theme was one, the Old World, and the difference between it and the New.

A widely traveled writer of economic affairs said recently that the chief difference between the American citizen and his overseas brother, in psychology, in type and methods of work, in economic standards, in living standards, was that each American citizen had at his beck and call some forty odd mechanical slaves while the rest of the world, or at least the Old World citizen had, I believe, a rough half dozen or so.

And when we check over this statement and call to mind our mechanical slaves here in our everyday life in Antioch we find that most of them, practically all of them, are brothers of the Genie of Aladdin. Aladdin's Modern Lamp unquestionably has given us a greater share of our modern life and enjoyments than any other single factor or industry for industry itself is based on electrical power.

Our advantages here in Antioch are evident. A flick of a switch to turn on the light, so that we can read the paper printed by electricity. A turn of a dial to bring to us enjoyment recorded by electricity. A low hum as broom's successor displaces backbreaking work. A churning sound that bruises not a single knuckle as the "Monday-Washday" slogan passes. A tingling bell as business summons the lord of many slaves or leisure beckons to the "Freed-man" of today, the average American citizen at his average day's rounds.

We have available for a few cents, within the reach of all, slaves who work tirelessly, freshening our lives, making us capable of greater things, bringing

longer years of work and enjoyment with less work and more enjoyment. So easily available that they receive but passing thanks for their labors. Their foremen, their owners who release them to us, the industry which furnishes them in millions for our use deserve our regard.

We should use, for our own and our community's good, all we can of their time and ability, these helpers brought by Aladdin in this Golden Jubilee Age of Electricity.

* * *

TAX FACTS

In a recent article, Merle Thorpe, editor of Nation's Business, brings out some interesting facts about taxation.

The tax collector, according to Mr. Thorpe, takes from each of us a day's labor out of each week. We earn around \$8 billion dollars a year and the tax bill is 13 billions—almost one-sixth.

Out of every 11 persons working, one is a public employee. A comparatively few years ago the ratio was one in 22. If the modern trend toward a bigger bureaucracy continues, probably one person in every five will soon be living off the rest of us.

Mr. Thorpe blasts the old supposition that taxes are paid by the corporations and the wealthy, and points out that every dollar taken in taxes from railroads or any other business, must be collected, in turn, from the customers of that business.

Sixteen cents out of every American dollar goes to the government. That's a fact worth thinking about before enlarging governmental functions in any direction.

* * *

THE FOOD INDUSTRY

One-fourth of all the money spent by the American people is for food products, according to a study made by the General Foods Corporation.

The annual income of the United States is around \$8 billion dollars, and of this \$2 billion is used to supply the dining table, in addition to three billion more for products "consumed on premises" and not cleared through any market.

The significance of this is shown by the fact that the value of all textiles in this country is about 12 billion yearly; automobiles, including trucks, tires and accessories, five to six billion; building construction, seven to eight billion; and iron and steel about six billion.

The food industry is thus the largest, as well as the oldest, of all businesses.

The trend in the food industry seems to be away from small producing and distributing units toward mass production and distribution, in line with automobiles, electricity, clothes, banking, etc. One famous company provides the American table with more than 40 favorite food products.

ANNUAL APPROPRIATION ORDINANCE

AN ORDINANCE MAKING APPROPRIATIONS FOR THE VILLAGE OF ANTIOCH, COUNTY OF LAKE AND STATE OF ILLINOIS, FOR THE FISCAL YEAR BEGINNING MAY 1, 1930 AND ENDING APRIL 30, 1931.

BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEE OF THE VILLAGE OF ANTIOCH, COUNTY OF LAKE AND STATE OF ILLINOIS:

Section 1. That the following sums or so much thereof as may be authorized by law be and the same are hereby appropriated as herein specified for the corporate purposes of the Village of Antioch, County of Lake and State of Illinois, for the fiscal year beginning May 1, A. D. 1930 and ending April 30, 1931.

1. For salaries of municipal officers \$2,000.00

2. For oiling streets and for the maintenance, repair and improvements of streets, alleys and sidewalks 1,500.00

3. For election expense 250.00

4. For maintenance of fire department 100.00

5. For maintenance and repair of public buildings 250.00

6. For lighting streets, alleys and public buildings 1,800.00

7. For water department and water works and for maintenance and repair of same 3,250.00

8. For the extension and laying of sewers and the maintenance and repair of sewer improvements and buildings 750.00

9. For public benefit fund 2,000.00

10. For the payment of bonds outstanding and interest thereon due and becoming due (all as per ordinance heretofore passed and approved) 1,518.00

11. Residuary and contingent funds 500.00

Total \$13,918.00

Library fund, in addition to the foregoing 900.00

Total \$14,818.00

Section 2. All unexpended balances of the appropriations for the year ending April 30, 1930 are hereby specifically reappropriated for the same general purposes for which they were originally made.

Section 3. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

Section 4. This ordinance shall take effect and be in force from and after its passage, approval and publication in accordance with law.

GEORGE B. BARTLETT, President.

Attest: HARRY A. ISAACS, Clerk.

Passed June 3, 1930.

Approved June 3, 1930.

Chancery Notice

STATE OF ILLINOIS,
COUNTY OF LAKE,
Circuit Court of Lake County, October term, A. D., 1930.
Grace Sengbusch, vs. Ervin Sengbusch in Chancery No. 2483.

The requisite affidavit having been filed in the office of the Clerk of said court.

Notice is therefore hereby given to the said above named defendant, Ervin Sengbusch, that the above named Complainant heretofore filed her Bill of Complaint in said Court on the Chancery side thereof, and that a summons thereupon issued out of said Court against the named defendant, returnable on the first day of the term of the Circuit Court of Lake County, to be held at the Court House in Waukegan in said Lake County, on the First Monday of October A. D. 1930, as is by law required, and which suit is still pending.

L. J. WILMOT,

Clerk.

BIDS WANTED

The Board of Directors of School District Number 35, Lake County, Illinois, advertise for bids for the building of a new school house for the said District according to plans and specifications left for inspection at the State Bank of Antioch, Illinois, and with the clerk of said Board.

Bids for the entire work and separate bids for excavation and construction, plumbing, heating and ventilation will be received. All bids must be accompanied by certified check for five percent of the bid.

Bids to be left with the clerk not later than June 25th, at 1 o'clock p.m., at which time they will be opened at the Channel Lake School.

The Board reserves the right to reject any or all bids.

CHARLES ATWOOD,
(44-15c) Clerk.

IT'S WISE TO CHOOSE A SIX

SIX

reasons why it's
wise to choose a
“SIX”

1. It's Smooth! Chevrolet has a 50-horsepower six-cylinder valve-in-head engine that delivers its power with a smoothness and silence that are impossible with anything less than six cylinders.

2. It's Comfortable! Chevrolet offers modern spring suspension, roomy bodies, and a smooth-running six-cylinder engine.

3. It's Easy to Drive! Chevrolet provides an extra-easy ball bearing steering mechanism. And six-cylinder flexibility means unusual simplicity of control.

4. It's Beautiful! Chevrolet is the only low-priced car with *Body by Fisher*. Hence, its style compares favorably with that of costly cars.

5. It's Economical! The Chevrolet costs no more for gas—oil—tires—or service. And six-cylinder smoothness holds down costs, by protecting the car from destructive vibration.

6. It's Easy to Buy! The G. M. A. C. payment plan, with its easy terms, is available to all Chevrolet buyers. Come in! Confirm all the reasons why it's wise to choose a Chevrolet Six.

Household Hints

FRESH GARTERS THE THING TO RENEW OLD CORSETS

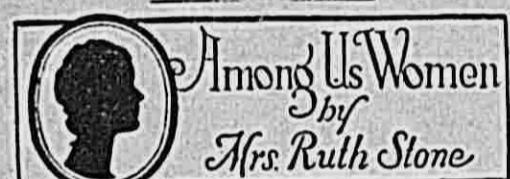

What part of an article gives out first? Where the greatest strain is, naturally, and with corset, corset or girdle, or whatever article one finds most comfortable and convenient, the part that is sure to go first is the hose supported that gets a constant tug and strain all day long. They also get somewhat soiled from constant rubbing against clothing which makes the whole garment seem shabby and worn out. The next time you are tempted to discard your girdle, try washing it and then putting on a fresh pair of Hickory so-on garters and see what a difference it makes.

The old ones can be ripped off and the new ones put on in a jiffy by simply stitching around the convenient

tab tops which come with the so-on garters. In selecting garters, whether to replace old ones, or in getting an entirely new girdle, the wearer should see that good, live elastic is used and that all metal parts are smooth and rounded so as not to catch the fingers or tear the stockings and, to promote the long life of sheer hose, the supporter buckle and loop should both be entirely protected with rubber where it touches the stocking.

A pair of so-on garters kept always on hand will save annoyance when an emergency arises, and should always be part of one's traveling equipment.

WHEN BABY GOES A-VISITING

The very early training in personal habits now urged by physicians and baby specialists is probably one of the most radical and desirable of all the changes in infant care which have occurred since grandmother's day. Along with strained vegetables, shortened clothes and the ban on rocking and pacifiers, this sensible and labor-saving practice of very early training is being adopted by modern mothers everywhere.

But just the same, it's a wise mother who takes precautions, especially when she is going visiting or traveling with the baby. At these times, especially Hickory rubber baby pants become a boon and a necessity. She may select those of high-grade gum rubber, rubber dam, rubberized sateen or silk sook or, for special "dress up" occasions, of silk rubber sheeting, but

whatever the basic material used, it is the cut that is the important feature in selecting baby pants.

They should be cut with a full back to give the active baby plenty of room for sitting or creeping and must be well ventilated, for the sake of the baby's health. For very warm weather one may choose those with the entire top of musqueline.

Several pairs must be kept on hand as they should never be worn after one notices they are damp. Wash them immediately if possible. In lukewarm water and soap flakes, rinse and rub dry with a clean towel and air them before putting them back on the baby or in his dresser. In this way the little pants will wear much longer and be sweet, clean and non-irritating.

About their church some men are like they are about their club. They want to keep it going even if they don't very often go there.

Delightful Vegetable Platters

By CAROLINE B. KING

WHENEVER I have to prepare an impromptu luncheon or dinner, I always know just what to do, for I make it a point to prepare for occasions like this in advance. So I take from my store of good things a glass jar of mushrooms, one of asparagus, one of stringless beans and one of baby beets. Then I proceed to make up a vegetable platter quite good enough for a king or for hubby's chief or anyone else who may be our unexpected guest.

I stuff the mushrooms with a nice bread filling and sauté them, dress the beets in white sauce, the beans in brown butter and sprinkle them with buttered crumbs, arrange the asparagus on lettuce leaves a la vinaigrette, and when my platters are all dressed up and served steaming hot and savory with toast points and curled bacon garnishes they do look entrancing, for all they have taken less than half an hour to prepare.

CHANNEL LAKE COUNTRY CLUB NEWS

— What Members of Popular Organization Are Doing —

Another perfect day for golf was missed by many of our members on Sunday. The rains of last week further improved the course and it is now in better condition than ever.

We were glad to see our star player, Henry Hafer, making his customary long drives and accurate putts. An effort will be made to arrange a match between Mr. Hafer and our new pro, Joe Paletti, in the near future. This should be a very keen contest and interesting to all of our golf enthusiasts.

It won't be long now until our summer residents are occupying their cottages and then all of the club activities will be in full swing. Don't wait until then, you Chicagoans, but come out every weekend and enjoy what is probably the most beautiful part of the year. The golf-course is good, the meals at the club house are good. We are set for the biggest season we have ever had.

The Sandells had as their week-end guest, Mrs. Rose Nichols of Evanston. The Tankersleys also had guests. The Hedges come up for the season on Thursday. Mr. and Mrs. O. D. Richardson have opened their cottage.

Mrs. Bensema intends spending the greater part of the summer with her parents, Mr. and Mrs. W. H. Gifford. Dr. Bensema who is still in Texas will join them later. David Gifford was graduated from Carnegie Tech. last week, and is at home again.

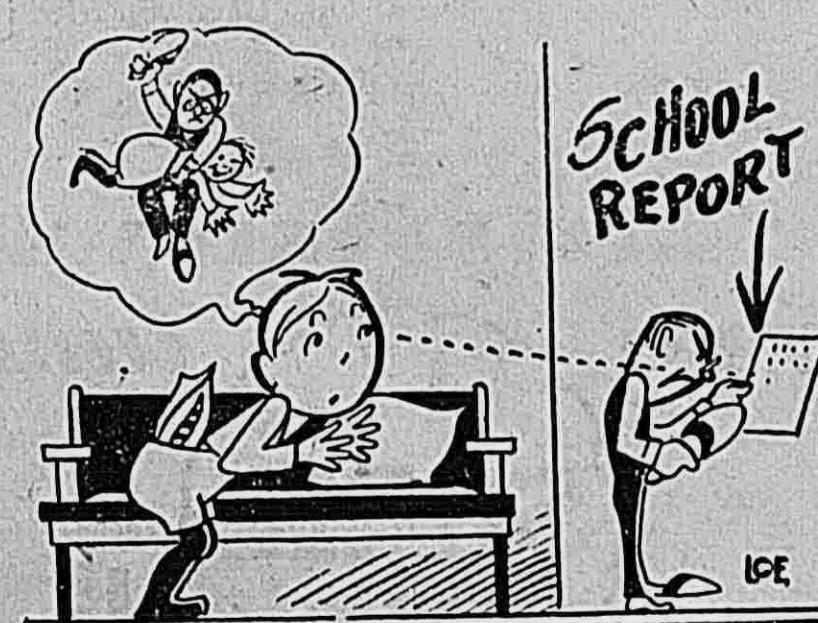

Smart "Trotteur" Costume

One of the smartest "trotteur" costumes evolved by Schlanck is shown above. The frock and scarf are of natural pongee hand-embroidered in shades of violet, while the coat is of white galon with a matching band of fur on the chape cloche hat.

TWO THINGS TO REMEMBER

By L. M. Wetzel

- 1 REMEMBER that fore-warned is fore-armed.
- 2 REMEMBER that buying one of our honestly good used cars protects you from future expense. We guarantee every one we sell.

WETZEL CHEVROLET SALES

TREVOR LADIES RETURN FROM SOUTHERN TRIP

Stock Sales Draws Large Crowd; Mr. Leonard is Auctioneer

The Misses Elvira Oetting, Beatrice Oetting and Florence Bloss returned Saturday from an auto trip to Ashland, North Carolina. Not being satisfied with the position she planned to accept Miss Beatrice returned to her former employment in Chicago.

A large crowd attended the sale of 128 horses at the stock yards Friday and of 65 cows on Saturday. Mr. Leonard of Woodstock was the auctioneer.

Dr. Fletcher, Salem, was a caller here Monday.

Elbert Kennedy accompanied his daughters, Mrs. Clifford Shotliff, Wilmot, and Mrs. Clayton Lester, Spring Prairie, to Chicago Wednesday, where Mrs. Shotliff's daughter, Anna May, underwent a tonsil operation.

Miss Daisy Mickle was a Chicago visitor Wednesday.

Mrs. Win. Evans is receiving treatment at Kenosha hospital preparatory to an operation for gall stones.

Mrs. Byron Patrick and sons and Mrs. Vanderburg and son, Salem,

called at the George Patrick home on Thursday.

L. H. Mickle left Wednesday evening on a business trip to Montana and Washington.

Henry Erle was in Chicago Wednesday and Thursday.

A number from here attended the graduating exercises at Paddock's Lake Saturday.

The teachers, Miss Florence Ridge and Miss Ethel Hackett of White-water were callers here Saturday and attended the graduating exercises at Paddock's Lake.

Mrs. Daniel Longman who had the misfortune to fall breaking her left wrist Monday, spent most of the week with her daughter, Mrs. Willis Sheen, returning home Saturday.

Miss Ethel Runyard, Chicago, was the guest of her sister, Mrs. Harold Mickle, over the weekend.

Mrs. Lewis Pepper entertained her mother from Waukegan Saturday.

Miss Marguerite Evans and Mrs. Ambrose Runyard called on the former's mother at the Kenosha hospital Wednesday.

Mr. and Mrs. George Patrick, Milton Patrick, Mrs. Alice Terpning and Miss Sarah Patrick were dinner guests Sunday of Mr. and Mrs. Byron Patrick at Salem.

The Trevor Leaders 4-H club held a meeting June 5, at Social Center hall. After the business meeting games were played. Lunch was served by Alvina Derler, Evelyn and Mildred Zmerly.

Daniel Longman and son were in Salem Friday evening.

Mr. and Mrs. D. A. McKay and Ruth Thornton were Chicago visitors Thursday.

L. H. Mickle and son, Harold, motored to Woodstock Monday to

visit the former's sister, Mrs. August Schmidt and family.

Miss Gertrude Copper spent several days last week with her sisters, Mrs. Wm. Smith and Miss Pauline Copper in Chicago.

L. H. Mickle and daughter, Miss Daisy, spent Wednesday in Chicago.

Mrs. Joe Fananer of Grass Lake spent Wednesday with her parents, Mr. and Mrs. Lewis Derler.

Mr. and Mrs. Kenneth Bock, of Florida, spent the past week with the latter's sister, Mrs. Ed. Topel and family.

Mr. and Mrs. Knowles and daughter of Fox Lake called at the Daniel Longman home Friday.

Charles Curtis, Kenosha, attended the horse sale at the stock yards on Friday.

Mr. and Mrs. Ben Ball and daughter of Milwaukee called on the former's uncle, Elbert Kennedy.

Mr. and Mrs. Fred Forster and children attended the ice cream social at the Lutheran church at Wilmot Wednesday evening.

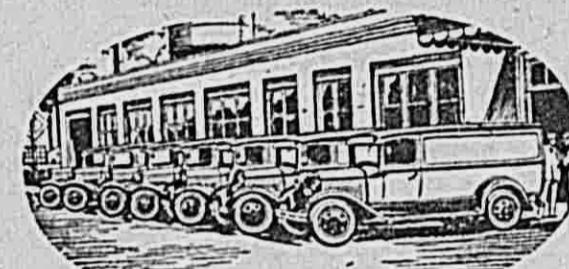

Visitors at the Klaus Marks home Sunday were: Mr. and Mrs. Olson, son Elmer, and daughter, Lillian, of Park Ridge; Miss Florence Christianson and friend, Racine; Mr. and Mrs. Harry Cavers and daughters of Racine.

Callers Sunday at the Daniel Longman home were: Mr. and Mrs. John Memler, Wilmot, and Mr. and Mrs. J. C. James of Antioch.

Mrs. Jack Hanson entertained several women at five hundred Thursday afternoon.

SERVING MANY BUSINESSES

Experience of large fleet owners reveals the unusual reliability and economy of the new Ford

A SIGNIFICANT TRIBUTE to the value of the new Ford is found in its increasing use by Federal, state and city governments and by large industrial companies which keep careful day-by-day cost records. In most instances, the Ford has been chosen only after exhaustive tests of every factor that contributes to good performance—speed, power, safety, comfort, low cost of operation and up-keep, reliability and long life.

Prominent among the companies using the Ford are the Associated Companies of the Bell System, Armour and Company, The Borden Company, Continental Baking Corporation, Firestone Tire and Rubber Company, General Electric Company, Goodyear Tire and Rubber Company, Kellogg Company, Knickerbocker Ice Company, Morton Salt Company, Pillsbury Flour Mills Company, The Procter and Gamble Company, and Swift & Company.

Each of these companies uses a large number of Ford cars and trucks. The Associated Companies of the Bell System use more than eight thousand.

Modern business moves at a fast pace and it needs the Ford. Daily, in countless ways and places, it helps to speed the production and delivery of the world's goods and extend the useful service of men and companies.

Constant, steady operation over many thousands of miles emphasizes the advantages of the sound design of the Ford car, its high quality of materials, and

unusual accuracy in manufacturing. Beneath its graceful lines and beautiful colors there is a high degree of mechanical excellence.

An example of the value built into the Ford is the use of more than twenty ball and roller bearings. They are hidden within the car and you may never see them. Yet they play an important part in satisfactory, economical performance. Their function is similar to the jewels of a fine watch.

Throughout the Ford chassis, a ball or roller bearing is used at every place where it is needed to reduce friction and wear and give smooth, reliable mechanical operation.

At many points, as on the transmission counter-shaft, clutch release, fan and pump shaft, and front drive shaft, these ball and roller bearings are used where less costly types of bearings might be considered adequate.

Additional instances of the high quality built into the Ford are the extensive use of steel forgings, fully enclosed four-wheel brakes, Rustless Steel, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, chrome silicon alloy valves, torque-tube drive, three-quarter floating rear axle, and the Triplex shatter-proof glass windshield.

The Ford policy has always been to use the best possible material for each part and then, through large production, give it to the public at low cost.

MRS. SAM STRAGHAN TO ENTERTAIN LADIES' AID

The Ladies' Aid of the Methodist church will meet at the home of Mrs. Sam Straghan on Wednesday afternoon, June 19.

Mr. and Mrs. Rudy Sterblitz of Winthrop Harbor spent Saturday and Sunday at the home of Mr. and Mrs. Burt Anderson.

A. M. Anderson and son, Cecil, spent Sunday in Waukegan with Mr. and Mrs. Rufus Anthony.

Miss Myrtle Haynes of Oak Park is enjoying a two week's vacation at the home of her parents, Mr. and Mrs. R. M. Haynes.

Mr. and Mrs. Andrew Harrison attended the high school commencement exercises at Genoa City Friday evening.

Mr. and Mrs. Harry Kurth, Chicago, Mr. and Mrs. Geo. Yopp, Burlington, Wis., Mr. and Mrs. Lester Osmund and Barney Nebar spent Sunday with Mr. and Mrs. John Brogan.

Joseph Panowski is improving his home with a fresh coat of paint. The Antioch Painting and Decorating Co., is the contractor.

Mrs. John Pacini spent Thursday in Chicago.

Chas. Hill of Milton Junction, Wis., called in Antioch Tuesday.

Mr. and Mrs. Robert Wilton spent Monday in Chicago.

Lloyd Murrie and George Wagner, Jr., attended the baseball game at Silver Lake Sunday.

Otto Klass and Frank Hunt are spending several days in Louisville and Frankfort, Kentucky, on business.

Janet Ellis celebrated her sixth birthday Tuesday.

Mr. and Mrs. Roy Kufalk and son spent Sunday in the home of Mr. and Mrs. Robert Runyard.

Miss Lois King returned to her home here Thursday after having completed her freshmen year at the University of Illinois.

C. E. Shultz is serving on the federal grand jury in Chicago.

Mrs. L. M. Wetzel and son, Lloyd, went to Bloomington Tuesday where Lloyd expected to enroll as a student next fall at Illinois Wesleyan. They were accompanied to Bloomington by Mrs. A. M. Krahl and daughter, Catherine, of Edison Park.

Rev. and Mrs. A. M. Krahl of Edison Park were guests Sunday of Mr. and Mrs. L. M. Wetzel and family.

George Rhodes spent Tuesday in Chicago.

George Gaulke, Woodstock, Harry Smith, Ray Webb and George Garland returned Tuesday from Loretta, Wis., where they had enjoyed a week's fishing.

Miss Helen Cribb is dispensing at the Cook county hospital in Chicago this week.

Mr. and Mrs. George Dunford and son, George, Jr., spent a few days last week visiting friends and relatives in Oak Park and Chicago.

Charles Savage of Spokane, Washington, is spending his vacation at the home of his cousin, George Dunford.

Mr. and Mrs. Chas. K. Anderson of Channel lake entertained 37 members of the Northwestern chapter of Kappa Alpha Theta of which their daughter, Lorraine, is a member, at their home Tuesday. Miss Lorraine is a member of the graduating class this year.

Fred H. Hackett, Industrial Arts instructor of the high school has now completed a course in Radio Theory and Practice and has been awarded his diploma. He finished the prescribed course of technical studies and is to be congratulated upon his achievement. His training covered all branches of Radio Transmitters, Public Address Systems, the latest developments in A. C. circuits and Screen Grid tubes, Television and Talking Movies. Special emphasis was given to designing, constructing, installing, servicing, and repairing Radio receiving sets. He will offer a course in the high school next year. No doubt such a course will be very popular.

CHRISTIAN SCIENCE CHURCHES

"God the Only Cause and Creator" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 8.

The Golden Text was, "All nations whom thou hast made shall come and worship before thee. O Lord; and shall glorify thy name. For thou art great, and dost wondrous things: thou art God alone" (Psalm 86:9, 10).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "For though there be that are called gods, whether in heaven or in earth, (as there be gods many, and lords many,) But to us there is but one God, the Father, of whom are all things, and we in him" (I Cor. 8:5, 6).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "There can be but one creator, who has created all" (p. 203).

Our Vacation Bible School will begin June 30, and will continue for a period of two weeks. All boys and girls of grade school age are eligible to enroll and are invited to attend. The school will meet during the week-day mornings from 9:15 until noon.

The members of the official board met at the parsonage on Monday evening of this week. The Epworth League met Tuesday evening and enjoyed a weiner roast as a part of the program. The Thimble Bee society meets with Mrs. Mike Jensen Wednesday afternoon. Choir rehearsal Wednesday evening at 7:30. The Boy Scouts will meet on Thursday evening. The patrol leaders of our troop are co-operating in the organization of a troop of scouts at Trevor. Monday night is their night of meeting.

The services for Sunday June 15th are Sunday school at 9:30. Morning worship at 10:45. There will be no evening service. During the summer beginning next Sunday, we are to hold services at the Channel Lake Pavilion each Sunday morning from 9:00 to 10:00 o'clock. Some of our young people in co-operation with the pastor are to conduct these services.

Mrs. S. H. Clark and Mrs. Blanche Hedberg left Wednesday for Steubenville, Ohio, where they will visit Mrs. Clark's mother and other relatives and friends for two weeks.

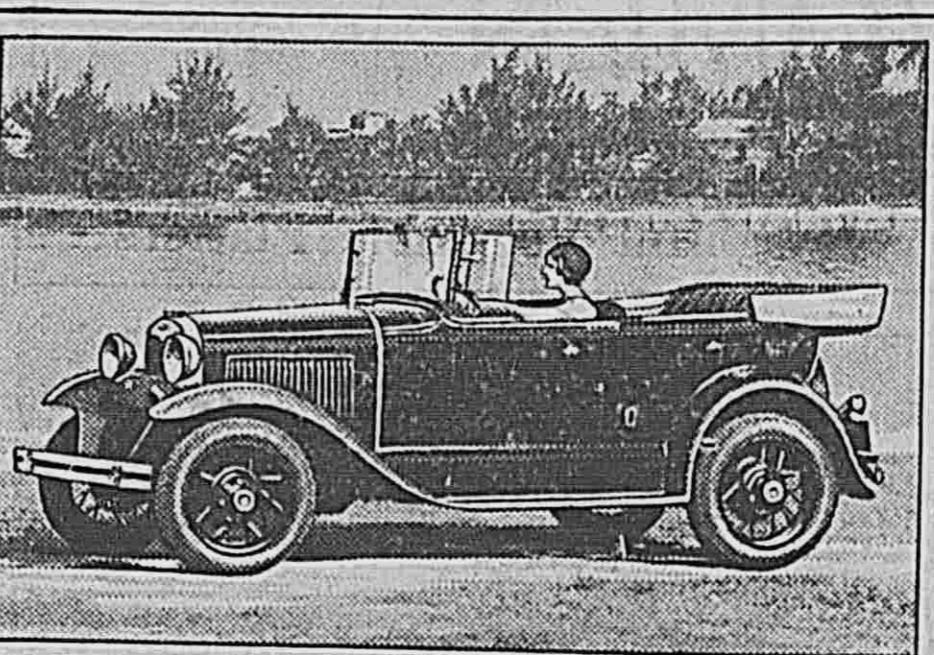

Mr. and Mrs. Tom Coole of Loon York departed Monday for New York from whence they will sail for England for a three months visit with Mrs. Coole's father on the Isle of Man.

Gasoline prices throughout the world vary from 21.2 cents per gallon in the United States is 64.8 cents per gallon in Bolivia, according to the Chicago Motor club.

New Ford Car Wins Favor

Ford Phaeton

THE Ford Phaeton, shown above, is equally popular as a family car and as a sport car for young people. The seating arrangement provides for the driver and one passenger in front and three passengers in the rear. Seats are upholstered in two-tone cross cobra grain artificial leather.

The top is of the quick collapsing type, easily handled by one person, and folds flat. The windshield of Triplex shatter-proof glass, is of the folding type and can be laid flat forward. The windshield wings fold over it, emphasizing the sport effect of the car.

BRISTOL WOMAN WEDS CHICAGO MINISTER SATURDAY

John Maleski Receives Injuries in Automobile Collision.

A wedding of note occurred Saturday when Grace Benedict became the bride of Rev. Everett Delaware of Chicago Ridge, Chicago. Rev. Fulton of Kenosha performed the ceremony, using the double ring service at the home of the bride in Bristol.

The bride was becomingly attired in a gown of white satin with a bridal veil fastened with small cluster of flowers carrying a shower bouquet of white roses and white sweet peas. She was attended by Miss Grace Harsfall of Milwaukee, who wore an orchid satin dress and carried a bouquet of orchid and white sweet peas.

Rev. Winburn Thomas of Palos Park, Ill., acted as best man. Miss Geraldine Higgins, a cousin of the bride, was the flower girl and the small twin sisters, Margaret and Grace Waldo were ribbon bearers. Appropriate music for the occasion was furnished by Mrs. Edward Stratton at the piano and Miss Betty Cook, violinist. The Misses Irene and Genevieve Higgins acted as ushers, while little Richard Jones was train bearer. The Benedict home was beautifully decorated in orchid and white. The bridal couple stood under an arch made from the hoops taken from a covered wagon used 50 years ago, owned by the bride's grandfather, and stood upon a rug woven from the material used in a coat worn by the bride's great grandfather, when he was a drummer boy in the war of 1812. A wedding dinner was served to sixty guests. The bridal couple are on a motor trip to Washington,

D. C., after which he will return as pastor to Chicago Ridge.

John Maleski met with quite a serious auto accident at Brass Ball Corners, when he was struck by a gravel truck driven by Lee Barhyte. He received several cuts about the face. He is considered out of danger. This is a very dangerous corner and all should strive to use much precaution.

The union meeting of the German Ladies' Aid society and the English Ladies' Aid society, which was held last Thursday at the home of Mrs. Frank Gethen proved a rousing success, about 45 were present. It was intended for a lawn party but owing to a sprinkle of rain, they were invited inside, where a delicious luncheon was served. After the business session a short program followed.

A company of fifty relatives gave a surprise party to Mr. and Mrs. L. J. Slocum of Millburn, Illinois, Sun-

day in honor of their 30th wedding anniversary. Mr. and Mrs. Frank Gethen, the J. A. Walker family of Bristol, Mr. and Mrs. John Lane of Woodworth, Mr. and Mrs. Delbert Faulkner and children of Gurnee, Mr. and Mrs. Fred Heller, Mrs. Hatte Stetson, Frank Slocum, Mr. and Mrs. J. R. Smith, the George Gillmore family, Kenosha, the Roy Olson family, Mr. and Mrs. Earl Slocum, Wesley and Arthur Slocum, Carrie Ronk, Mr. and Mrs. William Strang and daughter, Miss Ruth Crawford, Lila and Leonard Wiatrowski, Waukegan; Mrs. Grant Murrill and daughter of Russell, Mrs. Jas. Bignold of Waukegan, besides Harold and Howard at home. Refreshments were served, after which an impromptu program. The Slocum family were former Bristol residents and are well known here.

Rev. and Mrs. F. E. Frankson of Marinette, Wis., spent Sunday night at the Frank Gethen home. They were enroute to Madison Monday. Mrs. Gethen returned home with them for a visit.

SOOT AND DUST RAISE HEAT BILLS

Dirt in the Heating Plant Blamed for Fuel Waste.

There is a tremendous wastage of coal and fuel oil during the heating season, due to the fact that home owners do not keep their heating systems clean. Many heating plants are literally filled with soot and dust, and, according to the Holland Institute of Thermology of Holland, Mich., the dirty condition is responsible for unsatisfactory functioning of the heating system and consequent waste.

In substantiation of the foregoing, the Institute quotes from a report by the United States Bureau of Standards to the effect that even a thin coat of soot, one-eighth inch, cuts down a plant's efficiency 28 per cent, and a quarter-inch of soot will result in a 48 per cent cut in operating efficiency.

This explains why difficulty was experienced by some home owners in

Vacuum Cleaning Removes Accumulations of This Sort and Permits of Free Drafts as Shown at Right.

keeping their homes warm in last winter's cold weather. The soot and dirt in the heating system interfered with delivery of heat when it was most needed.

There is only one remedy for a condition of this sort, and that is to subject the heating system, including the chimney, to a thorough cleaning before the next heating season starts. When soot and dirt are cleaned out, draft troubles may be eliminated, combustion is more thorough, more heat is extracted from the fuel burned, and the home is more satisfactorily heated at less expense.

Formerly this was a dirty, messy job. Now it is accomplished as easily as the vacuum cleaning of the interior of the home, and much the same way. Cleaning of heating plants is now done by means of a giant vacuum cleaner that comes to the job mounted on a motor truck. The cleaner is attached to various openings in the heating plant, including the chimney, and the powerful suction of the fan draws out the dirt and soot, forcing it into the bag for later disposal. The cost of a job of this sort is less than the price of a ton of coal, though many times that will be saved in the course of a year in eliminating fuel waste and cleaning expenses.

HEATING PLANTS VACUUM CLEANED

Soot and Dust Blown Into 40-Foot Dirt Bag.

Machinery has again come to the rescue of the home owner in the accomplishment of one of the most menial and disagreeable of jobs, one which has heretofore been a messy, dirty and undesirable job, says the Holland Institute of Thermology of Holland, Mich., and that is the cleaning of the heating systems.

In lieu of a grimy sweep with brooms, brushes, ropes and shovels, neatly uniformed operators arrive at the job with the big mechanical cleaner mounted on a motor truck. The cleaner parts include a powerful suction fan, several lengths of flexible piping and a 40-foot dirt bag. The

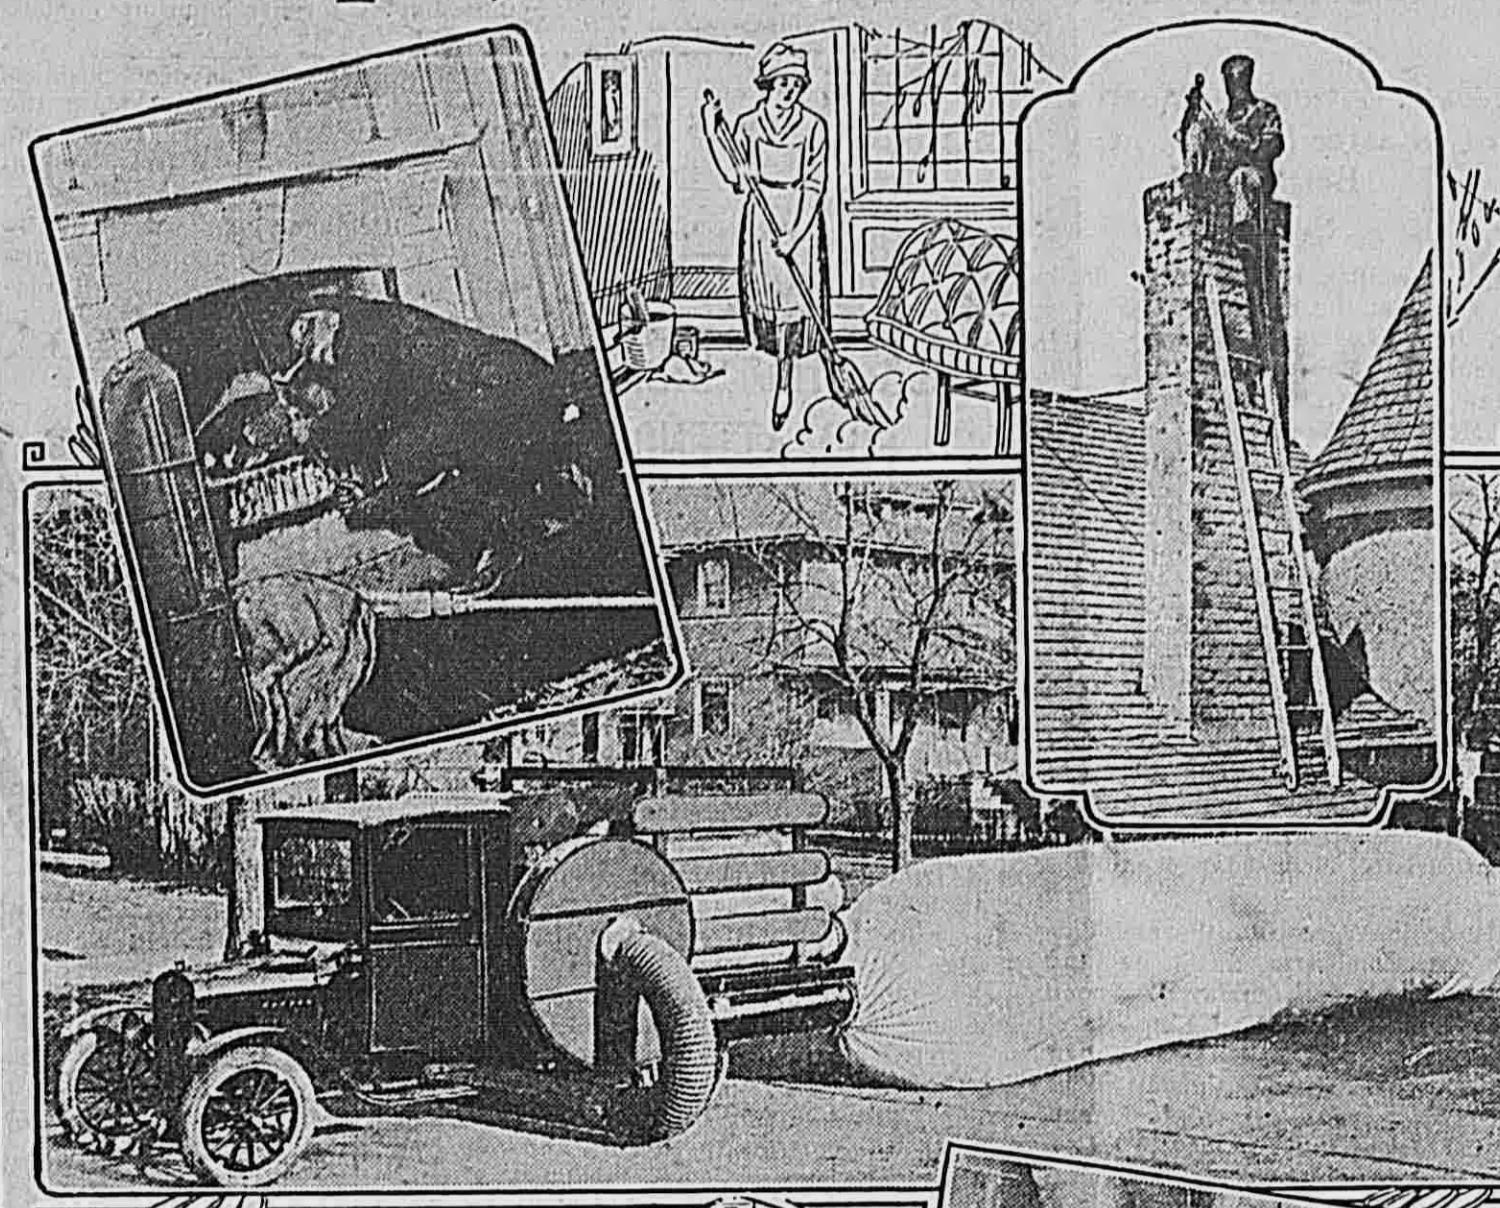

Cleanliness Characterizes the Use of the Giant Vacuum Cleaner for Cleaning the Heating System.

attendants put the giant suction cleaner in operation, and the powerful suction draws the soot and dust accumulations from every part of the heating system, blowing the dirt into the dirt bag.

Without muss, fuss or dust the heating system is thoroughly cleaned and ready to give more efficient heating service when full brings the first touch of frost. Many vacuum cleaners of this type are in use throughout the country, but according to the Holland Institute of Thermology, to secure the best results it is advisable to engage one equipped with a high powered motor and suction fan.

Task of House Cleaning Simplified by Machinery

Housewives Eliminate Drudgery by the Use of Modern Equipment and One-Room-at-Time Plan—Include Heating System in Cleaning Schedule.

TO WOMANKIND, the immaculately clean, spick and span house is a factor making for keen pleasure. When house cleaning is over, the average man breathes a sigh of relief. And the homemaker, too, can be certain, visualizes with a peculiar dread a thorough house cleaning. Mentally she experiences the bare floors and sketchy meals and the wearisomeness and tired back of past house cleaning days. She quite forgets that house cleaning today is not nearly so wearisome nor so arduous as in the days of the shut-off parlor and base burner.

Planning and doing housework is made more easy by conveniences and facilities unknown a decade ago. Perhaps due to the fact that the male element has not viewed the performed house cleaning with any degree of satisfaction or welcome, it is men who have devised machinery that has been of almost incalculable benefit to the housewife in house cleaning times.

The real secret of easy house cleaning lies in having efficient tools with which to work and a systematic although flexible house cleaning plan. These give the homemaker a feeling of readiness to commence the house cleaning and eliminate that subconscious desire that so often manifests itself to wait until tomorrow.

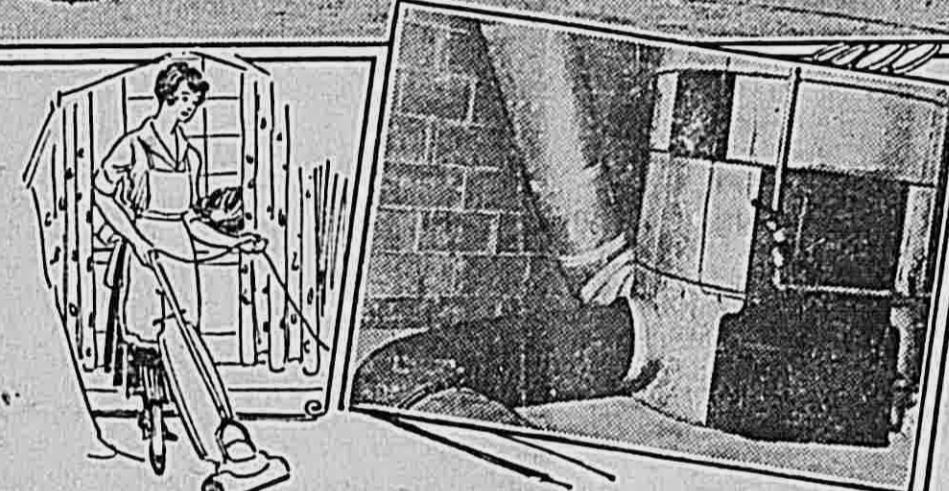

If most homes the vacuum cleaner occupies the post of duty held for so many years by the broom. This practical unit of household equipment not only saves the labor of at least one person during house cleaning time, but its ease of operation and thoroughness in cleaning are a genuine boon. This is especially true where women utilize the attachments that accompany modern vacuum cleaners.

At house cleaning time the modern homemaker in addition to her electrical cleaner has a whisk broom and dust pan, a dust mop, a long handled wall-brush and a stepladder that locks automatically. She also has a generous supply of cheese-cloth for dusting and polishing, a chamois, scouring powders, soap and soap flakes. If the water supply is hard, she also has several packages of a water softening powder. Soft water readily emulsifies soap, making cleaning much easier because the thoroughly soapy solution more readily "cuts" grease and dirt. Furthermore, soft water is easier on the hands and doesn't harden them as does hard water.

The best way to get the house cleaning done quickly and easily is to systematize the job. It is a good idea to go through the house with pad and pen, noting the various things to be done, and the order in which they can be done the easiest. In houses of more than one story, it is usually convenient to commence cleaning at the top of the house and work down to the basement. If the home occupies one floor, it is better to work from the front toward the back.

If outside help is called in for the heavy work, such as cleaning rugs, washing windows, polishing wood-work and doors, the various tasks should be completed one by one. However, if the work must be done by the homemaker herself only such work as can easily be accomplished during a day should be planned for one day.

With the smaller living quarters of

Similar to the broom, the chimney-sweep has been supplanted by the vacuum cleaner, such as illustrated in the middle picture. It does the dirty job of cleaning the heating plant without muss or fuss, the dirt being sucked into the huge dirt-bag to be taken away. Picture at lower right shows how the big cleaner is attached to openings in the heating plant and the chimney by means of flexible piping.

today, the practical and easy way is to clean and put a single room in order each day. It is not necessary to do everything all at once. Many women will appreciate this plan of doing a single room at a time, because it combines a number of light tasks with a few heavy ones. This is not so fatiguing as spending an entire day cleaning and polishing floors, or some other heavy task, and, best of all, when one room at a time is cleaned and put in order, there is no general upheaval of the house and "there is a bed to sleep in at night."

The work seems to proceed more smoothly on the one-room schedule, if the curtains are removed and washed first; next may come the cleaning and putting of closets, drawers, or cupboards in order; then cleaning pictures and bric-a-brac. After these minor things are out of the way, the ceiling may be dusted with a long-handled brush. Then the rug, heavy draperies, upholstered furniture or mattresses may be cleaned with the vacuum cleaner without removing them from the room.

If the wood-work is painted, it should be washed with soap and water, then rinsed with clean water and dried immediately with a soft cloth. For natural finished wood-work and wood furniture, a good combination cleaning and polishing preparation often gives better results than polish itself.

The vogue for lacquered ware provides an easy way to refresh furniture that may be chipped or scarred. Instead of laboriously coaxing it back to life by repeated polishing, the housewife will find it easier and more satisfactory to treat it with a coat or two of quick drying lacquer. Thus it can be adapted to room color schemes and the freshly lacquered pieces will have a pleasing touch of newness.

Somewhere in the course of house cleaning must come the cleaning of the heating system. According to the Holland Institute of Thermology of Holland, Mich., the heating system should be thoroughly cleaned at least once each year for three cardinal reasons, namely, economy, safety and cleanliness. It does not take much soot to deprive a heating plant of a great deal of its heating efficiency. Government engineers have found through careful tests that one-eighth inch of soot on the heating surface of a furnace will reduce the plant's efficiency 25 per cent or more, and the amazing revelation was made that one-quarter inch of soot will cut a plant's heating efficiency nearly 50 per cent. It is quite obvious that a thorough cleaning will be the means of saving considerable money.

The second factor is the safety factor. Most home fires are due to defects in the chimney and in the flue pipe. Chimneys settle, their linings disintegrate and become cracked. The sulphurous gases and extreme heat variations cause further damage, including disintegration of mortar joints. The result is that sparks often find their way through these cracks into the framework of the house. The flue pipe leading from heating plant to the

Antioch 4-H Club Meets Friday Eve.

All members of the Antioch 4-H club are requested to be present at the Friday evening meeting at the Antioch Township high school at 7:30 p. m. W. I. Lyons, Waukegan, Government Biologist in charge of Bird Banding Work, will be present and give the members an illustrated lecture on Bird Study.

After the program a camp fire meeting will be held.

School**

Mr. and Mrs. James P. Sherman and granddaughter from Grayslake spent Sunday with Fred Sherman.

The Annual Alumni Banquet of the Wilmot high school was held at the Wilmot gym Saturday evening and attended by eighty of the former graduates, the Class of 1930 and friends of the institution. The banquet was served by the mothers of the graduates under the very able direction of Mrs. S. Jedele.

The evening's program opened with two vocal numbers by Grace Carey accompanied by Rhoda Jedele. Mrs. Robert McCracken of Kenosha gave a very effective reading. Norman Jedele accompanied by Rhoda Jedele at the piano played a clarinet solo and Mr. and Mrs. Edwin Johnson with Miss Olson from Kenosha, as accompanist, sang a duet.

Cyril Dalton, president of the association introduced the toastmaster of the evening, Henry Blim, a Chicago attorney, and a member of the first class to graduate from the school in 1905 twenty-five years ago. Mr. Blim is a brilliant speaker and his clever and humorous remarks soon carried his audience back to the happy period they spent as students. Mr. Blim called upon County Superintendent Ilgenfeldt, Principal M. M. Schnurr, and former graduates of the school, Bert Schenning, Herbert Swenson, Arthur Fiegel and Mrs. Roy Murdock. Each briefly welcomed the Class of 1930 as future Alumni and with many a short anecdote pertinent to their school associations assisted in keeping the banqueters highly entertained. Adolph Fiegel gave the response for the Class of 1930.

The decorative scheme was carried out in blue and white, the Class of 1930's colors and their class flower, the yellow rose was used with good effect.

Hugh's Night Hawks from Beloit furnished excellent dance music for the occasion.

Much credit for the success of the reunion is due to the president, Cyril Dalton, and his associate officers, Rhoda Jedele and Bernice Harm.

At a short business meeting held during the evening Mr. Dalton was re-elected president of the organization, Bert Schenning of Chicago, vice-president; Mrs. R. C. Burton, Richmond, secretary; Bernice Harn, treasurer; and Herbert Swenson of Kenosha, publicity man.

Mrs. J. E. Crey and Mrs. F. Kruckman were in Kenosha Friday.

Mr. and Mrs. B. Ball and daughter of Milwaukee, and E. Kennedy of Trevor were Sunday guests of Mr. and Mrs. R. C. Shotliff.

Mrs. John Sutcliffe spent from Friday until Saturday with relatives in Chicago.

Norman Jedele was home from Milwaukee for the week-end.

Mary Swenson was a guest the first of the week of Mr. and Mrs. Herbert Swenson at Kenosha.

Mr. and Mrs. Wm. Anderson and

daughter from Genoa City spent Sunday with Mr. and Mrs. Raymond Rudolph.

Blanche Carey was guest of Mr. and Mrs. R. Kempler at Elgin from Saturday to Monday.

Anne May Shotliff was operated on for tonsils and adenoids at the West Suburban hospital in Chicago Wednesday. She was accompanied by her mother, Mrs. R. C. Shotliff, and Mrs. Clayton Lester, Spring Prairie.

Mr. and Mrs. L. H. Cole and grandson of Crystal Lake and Mr. and Mrs. Chase Cole of Richmond were Saturday guests of Mr. and Mrs. Frank Kruckman. Sunday Mr. and Mrs. Kruckman entertained for Rev. and Mrs. Carl Stromberg and daughter of Salem, Mr. and Mrs. A. Kruckman and son and Mr. and Mrs. Fry from Libertyville.

Mr. and Mrs. Edward Murphy and daughter, Anna from Kenosha called on Dr. and Mrs. Darby Sunday.

Mrs. Nichols, a Social Welfare worker from Madison was an overnight guest Saturday of Mr. and Mrs. Lynne Sherman.

Mrs. H. Frank and Mrs. W. Harn spent Friday with Mrs. John Grabow and daughter at Burlington.

Mr. and Mrs. S. L. Kufalk and daughter of Antioch and Bernice and Iola Harn motored to Beloit Sunday.

Mrs. Wm. Harn and sons, Melvin and Rodele, Mrs. John Frank, Ethelyn Albrecht and Mrs. Herman Frank motored to Kenosha Monday.

Mrs. Frank submitted to an eye examination and returned Tuesday to enter the Kenosha hospital where she is under the care of Dr. Ashley.

Gertrude Nett was awarded a brief case at the Kenosha County Eighth Grade exercises at Paddock's Lake Saturday for high honor student in having the best examination grade. Gertrude's average was 95.7-10%. Vern Pacey was fifth in the honor roll of ten highest with a grade of 92.11-100%.

Miss Ruby Bice and the pupils of the intermediate department held a picnic at the Kenosha County park Friday for the closing of the school year.

Tommy Globis and Shirley Sherman were graduated from the Oak Knoll school and received their diplomas at Paddock's Lake Saturday.

Wednesday, June 4, the Kenosha high school held a picnic at the West Kenosha County park. Several games and other games were the events of the afternoon. Lunch was served at 5:30.

Several members of the 4-H club will leave for Madison June 18th to attend the Annual 4-H club week of camping at the University. Those who have not already made their reservations do so by getting in touch with M. M. Schnurr before June 16.

The Wilmot schools will close for the summer vacation this Friday.

An event of unusual interest in the coming Friday of the new school building at English Prairie. An all-day picnic has been arranged with the program commencing at 10:30 o'clock with games for old and young, 12:00—basket lunch; 1:00—music by Richmond Grade school orchestra; invocation, Rev. Bolt; greetings from English Prairie's oldest Resident, F. L. Hatch; greetings from former teachers, Mrs. Jas. Winn, Mrs. Lewis Cole; greetings from a former pupil, E. V. Orvis; greetings from pupils of today, Living pictures. History of English Prairie School District, Byron Orvis.

Supervisor of Rural Education; address, Francis G. Blair, State Superintendent of Public Instruction, benediction, Rev. Fleming.

SALEM PRISCILLAS TO HOLD HARD TIME PARTY SOON

**Several Attend Meeting
of Eastern Star at
Bristol**

The Priscillas will hold a hard time social at the church Friday evening, June 13, instead of June 6, as announced. The committee in charge are Mrs. Orville Riggs, Mrs. Lee McVicar, Mrs. George Belmer, Mrs. Roger Huntoon and Mrs. Lloyd Henslee. Coffee cake and coffee will be served. Come and have a good time.

Mr. and Mrs. Louis Jarnigo, Mr. and Mrs. Elwin Manning, Mimes, Fred Stephens, Leo McVicar, Mary Hope, Byron Patrick, George Thomas, Ada Huntoon and Orville Riggs and the Misses Josie and Jennie Loescher, Ida Jarnigo, Olive Hope, and Howard Johnson attended O. E. S. meeting at Bristol Wednesday evening.

Mrs. Ruth Ward, Dorothy and Barbara Ward and Mrs. Susie Manning of Kenosha spent Sunday afternoon with Mr. and Mrs. Lloyd Henslee.

Mr. and Mrs. Floyd Mansfield of Kenosha had dinner Sunday night with their cousins, Ada Huntoon and Howard Johnson.

Mr. and Mrs. Ray Frost and children and Mr. and Mrs. Frost, Sr., of Rochester spent Sunday afternoon with Mr. and Mrs. Spencer Cull.

Mr. and Mrs. Frank Johnson and Mr. and Mrs. Robert Imrie drove to Elgin Sunday to visit relatives.

Harold Fennema, Helen McVicar, Thelma Schlaix and James Schotten of Salem Center school received their diplomas at the commencement exercises at Paddock's Lake Saturday.

The first three pupils doing their work in seven years.

Richard and Elmer Kapengast and Alfred Schultz drove up to Will Woods at Withee after a truck load of cedar trees for A. G. Hartnell.

They made the trip and return in 24 hours.

Mr. and Mrs. Newton Meredith entertained Misses Emma and Bertha Roth over the weekend.

Mr. and Mrs. Lawrence Jarnigo and children and Mr. and Mrs. Albert Jarnigo of Kenosha spent Sunday with their mother, Mrs. Kate Jarnigo.

A large crowd attended the Legion Auxiliary dance at Paddock's Lake Saturday evening.

Mr. and Mrs. Fred Schonscheck of Kenosha and Mr. and Mrs. Emory Schonscheck of Channel lake called on their parents, Mr. and Mrs. Herman Schonscheck Saturday evening.

Mimes, Ada Huntoon, Spencer Cull, Olive Mutter and Jeannie Loescher attended the Salem Mound cemetery society at Mrs. Fred Schenning's at Silver Lake Wednesday afternoon, June 4.

Thirteen ladies attended the Priscilla meeting held at the home of Mrs. Miner Hartnell Thursday afternoon.

Mrs. Arthur Hartnell, who sprained

Supervisor of Rural Education; address, Francis G. Blair, State Superintendent of Public Instruction, benediction, Rev. Fleming.

ed her ankle on the way home from Withee May 12, is still unable to step on her foot.

Arthur Schonscheck and Julius Krahn drove to Milwaukee Sunday for the ball game.

Mr. and Mrs. Will Gallert and Bettie Jane Gallert drove to Elburn Sunday to visit relatives.

The Sunday school is planning a Children's day program to be given Sunday morning, June 15, at 10:30 at the church.

MILLBURN CHILDREN PRESENTED BIBLES FOR ATTENDANCE

**Mrs. W. A. Bonner's 4-H
Club Holds Regular
Meeting**

The Children's day services at the church on June 8, were enjoyed by everyone. The play, "At the Crossroad" which was a practical demonstration of student summer service, was well given. Every year the Sunday school presents Bibles to each child of regular attendance, who has passed the seventh birthday. Those receiving them this year were: Laura Denman, Phyllis Hughes, Lloyd Miller, Charles Mintz, Ruth Pierstorff, Howard Slocum and Frances Swensen. Three babies were baptized, Lyman and Lynn Miller and Donald Denman.

The New-Bean-Mill-Hicks 4-H club held their second meeting June 2, at the home of Mrs. W. A. Bonner. There are 13 members and all were present. After the business meeting Ruth Wells gave a talk on "The Necessity of Clean Underwear." The rest of the afternoon was spent darning and patching. Helen Bauman, reporter.

Miss Grace Holdridge, Waukegan, visited her cousins at Lewis Baum's this week.

Mrs. Jessie Low, accompanied by her niece's family, Mr. and Mrs. Jas. Mayer and daughter of Chicago, left Friday for Toronto, Canada, where they will visit their niece and cousin.

Mr. and Mrs. C. E. Denman of Gurnee, Mr. and Mrs. W. S. Denman and sons of Waukegan attended the Children's day service Sunday and were

entertained at the Edwin Denman man home for dinner.

Mr. and Mrs. W. E. Jones of Gurnee were entertained at the L. S. Bonner home Tuesday.

Mrs. Dorothy Brown and little son, who have been housekeeper at the S. L. LeVoy home for several months, left Sunday for her home at Manhattan, Ill.

The Christian Endeavor business meeting for June was held at the home of Homer and Ward Edwards Friday evening with a large attendance.

John Elchingher, who was painfully injured two weeks ago while starting his pumping engine, is still seriously ill.

Pikes Peak No Nemesis for the New Chevrolets

Rarefied Air and Sharp Inclines is Easily Negotiated

Colorado Springs, Colo., June 12—A concrete example of the tremendous strides made by automotive engineers toward the goal of mechanical perfection in the modern motor car is provided here daily on the Pikes Peak highway.

A few years ago, a car that would scale the Peak was a front-page feature throughout the country, while today, thanks to the automotive engineer, a car's ability to performably and satisfactorily in the thin rarefied air and on the long steep ascents of the Peak is taken more or less for granted.

Despite a greatly improved highway up the Peak, the long continuous climb and the light air pressure in the high altitudes, which used to mean a boiling radiator and an engine too hot to make the grade, provide one of the severest tests in America of the mechanical condition of a car.

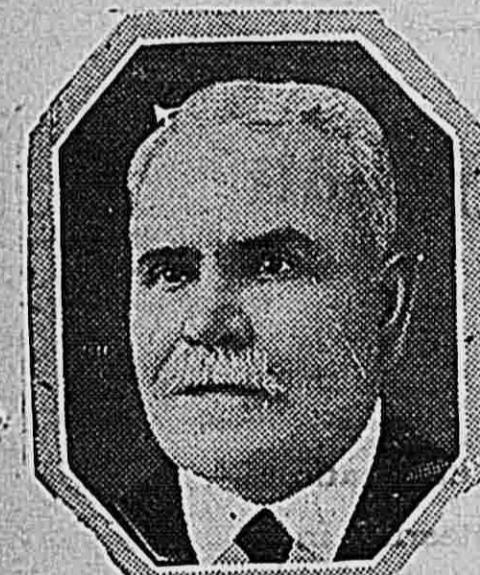

Even more outstanding than the performance of those tourist automobiles which make a single trip up the steep incline in the record of a fleet of trucks used to maintain the highway in constant repair. The fleet now in such service includes three Chevrolet sixes which sees almost daily use up in the region above the cloud-levels.

Recently the fleet has been used to haul away huge mountains of snow to prepare the highway for the summer tourist travel. The route was expected to be opened early in June. With the snow cleared away, the fleet will continue in daily service doing maintenance and repair work on the highway.

The Chevrolets used in this work have been in operation for more than a year. That the cars are operating today with the same degree of economy and dependability as a year ago is a fitting tribute to the achievements to those engineers who work quietly behind the scenes in the interest of improved performance at lower cost.

KONJOLA ENDS EIGHT YEARS OF SUFFERING

Just Another Proof of This Best Known Medicine in America

MR. CHARLES J. MARTIN

There is reason why Konjola, the new and different medicine of 32 ingredients, is a household word in tens of thousands of American homes. That reason is simple. Konjola makes good.

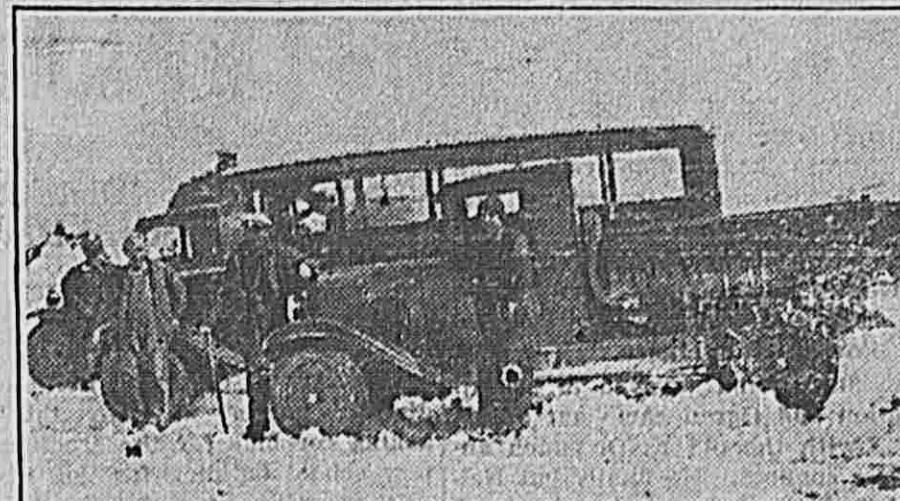

Take, for example, the experience of Mr. Charles J. Martin, Centerville Station, Ill., who says:

"For eight or ten years I was bothered with gas pains and vomiting spells. Constipation was another source of trouble, having had this all my life. Then too, I had rheumatism in my knees. Nothing I tried did any good, and the outlook was discouraging. But Konjola proved to be just what I needed, and today my stomach is fine; the rheumatism is gone and Konjola relieved constipation in no time. I am feeling so much better and stronger that I am glad to recommend Konjola to everyone."

Though one does not have long to wait when Konjola goes to work, it is recommended that a complete treatment of from six to eight bottles be used if best results are to be obtained.

Konjola is sold in Antioch, Ill., at S. H. Reeves' drug store, and by all the best druggists in all towns throughout this entire section.—Adv.

Clearing Way for Tourists

Before any tourists can scale Pike's Peak, snow has to be cleared off the highway. Three Chevrolet trucks are shown at this work above the 10,000-foot altitude mark. The route is to be opened early in June.

To Clean Up Poultry Flocks at Illinois State Institutions

Springfield, Ill., June 11—Poultry flocks, at all state institutions in the northern half of Illinois are to undergo a rigid inspection for the detection and elimination of all specimens that are not true to type for the breed and variety they represent, and for the removal of all that reveal indications of common poultry ailments.

This movement, according to the chief poultryman in the department of agriculture, E. G. Horner, is a step in the development of efficient farming at the institutions maintained by the state. Following the policies outlined by Governor Brandon, is exerting every effort to effect economy in the production of the food supplies for patients at state hospitals, for convicts in the penal institutions and other wards of Illinois.

On the basis that selective breeding is essential to successful husbandry, the poultry chief plans to cull out the unworthy specimens. Later, veterinary talent in the animal industry division of the department of agriculture will be engaged to test the flocks for the detection and elimination of avian tuberculosis.

Officials of the department of public welfare state that poultry is an important item in the relations of the institutions population. Furthermore, the work of caring for the fowls affords beneficial employment for a number of the inmates.

New Laws in Eight States Protect Autoist From "Thumb Tourist"

Chicago, Ill., June 11—Eight states in recent years have adopted legislation which bars guests in automobiles from suing the car owner in the event of accident, unless the injury or death was intentional on the part of the car owner or caused by his reckless disregard for the rights of others, according to the legal department of the Chicago Motor club.

The states which have enacted such a law are California, Connecticut, Delaware, Indiana, Iowa, Michigan, Oregon and Vermont. It was pointed out in the legislatures of those states that "thumb tourists," or hitch hikers, had found it lucrative to sue those car owners who gave them a ride during which an accident occurred. The injury to the "guest" was often slight, if any, but he was frequently aided in his efforts to collect by unscrupulous lawyers.

"At the present time, the driver's liability for his guest or guests is one thing in some states and entirely another thing in other states," the motor club lawyers pointed out. "This chaotic condition, we believe, will eventually be rectified by other states taking action similar to that of the eight states mentioned."

ELECTRIC COOKER for
HOME AND OUTINGS

The Corona Cooker is an electric fireless oven which you can use in your kitchen for home meals or take with you in the car for picnics and other excursions. It bakes, boils, fries and stews with equal efficiency, and in addition, like a vacuum bottle, keeps foods hot or cold over long periods.

Corona may be used in two positions to accommodate all the aluminum utensils which come with it; and it's a great money saver because, like a fireless cooker, it operates largely on stored heat.

It is unequalled as a warming oven for rolls and breads of all kinds and is especially good for warming pastry patties to just the desired degree of crisp, brown flakiness. See it demonstrated at our store.

ADVERTISE
your merchandise
and it will sell!

So we reduced it —from \$4 to \$3

A great many people neglect their property because of the high cost of paint. That's what we've believed for a long time. What was to be done? We positively wouldn't sell a cheapened article because—

Only when quality is maintained can low price be considered an advantage.

So we arranged with the manufacturer of the paint we handle regularly to sell for a limited period of time—

A \$4 Quality Paint for \$3 a Gallon

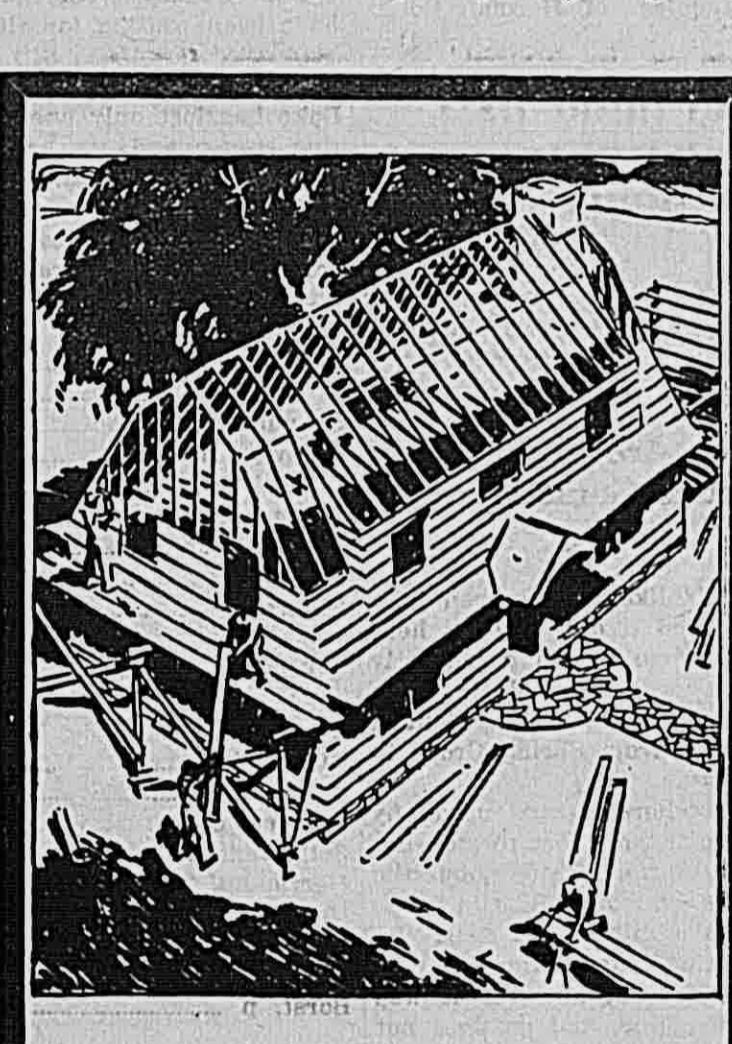

Guarantee

We guarantee this superior quality paint to give satisfactory service for at least five years.

Should it fail to do so, we will replace it free of charge.

The paint is the highest quality material that modern science can produce and by making this special proposition, we give the consuming public an opportunity to show whether or not such an offer increases interest in property protection.

Chase Webb, Antioch

It's
Pedigreed

 IME was—when the owner of a building wished to sell—he had to call in the contractor and material merchant—to prove that quality material had been built into his structure.

Those days are gone forever.

You may now build with known material—**CERTIFIED MATERIAL** and receive from us an actual "pedigree" of the building in the form of a Certificate of Quality—that will help you prove resale value in years to come.

Before you build or buy—telephone, write or ask us about **CERTIFIED MATERIAL** and our Certificate of Quality.

CARL OGREN WINS DECISION OVER NAVY CHAMPION

Double Windup Features Antioch Palace Friday Card

Carl Ogren, inter-city welterweight champion in the New York-Chicago bouts, showed a big crowd of fight fans at the Antioch Palace Friday evening why he is the champion fighter in this division when he won the decision over Jimmy Nelson, welterweight champion of the United States Navy.

It was the feature go of a fast eight bout card, and the fans howled their delight at its conclusion. Ogren showed his old time effective-

ness throughout the battle, and had Nelson on the floor for counts of eight and nine, respectively, in the final round.

First Round Even

The first round of the headline bout was featured by some fast boxing. Both boys displayed some clever footwork and the round was very even. In the second stanza Ogren had a slight advantage, crowding Nelson to the ropes most of the time. Both fighters landed several hard blows in this stanza.

The final round proved to be full of action and Ogren came out of his corner with the old K. O. punch anxious to connect. He finally put Nelson in the corner of the ring, and landed a hard right cross to the jaw, sending the Navy fighter reeling to the canvas for a count of eight. Nelson was upon his feet immediately and started to show fight, but ran afoul of another one of Ogren's jabs and went to the canvas for the count of nine. He continued to get up and fight, but the bell sounded him from further punishment.

Tony Wins

In the semi-windup affair, Walter Stren, Swedish lightweight champion, dropped the decision to Tony Maccarillo of Chicago. The latter fighter had Stren on the ropes during the third round and landed a number of hard punches to earn the decision.

Earl Vermilye won from Paul Stepright in 4 rounds.

George Taylor won easily from Murray.

Bernhoft of Twin Lakes knocked out Peterson.

Eugene Burton took Geo. Hebesky, Lunetto lost to Augie Burton.

Chet Upham took the decision from Chuck Griffin.

Story Featured Friday

Haywood Story, the popular fighter with the pancake nose always puts on a good show and will have his hands full when he meets John Belma, 2nd place Golden Glove champ.

Pat Becker and Danny Dorland will furnish the other feature of the double windup. Promoter Macek claims some mighty good boys in his preliminary bouts on the remainder of the card.

John Connelly, Chicago, vs. Geo. Schrosbree, Chicago, 135 lbs.

Jim Milton, Chicago, vs. Robin Schrosbree, Chicago, 126 lbs.

John Taylor, Waukegan, vs. Jack Simmons, Chicago, 145 lbs.

Oscar O'Hannan, Waukegan, vs. Eugene Burton, Kenosha, 114 lbs.

Chuck Upam, Waukegan, vs. Chuck Martin, McHenry, 145 lbs.

Don Stickles, Grayslake, vs. John Fitzgerald, McHenry, 145 lbs.

WANT BIDS FOR NEW SCHOOL

Channel Lake District to Let Contract for New Building

Directors of Channel Lake school, district number 35, are this week asking for bids for the erection of a new school building for that district. Authorization of a \$10,000 bond issue for building purposes was given by voters at a special election held March 15.

Bids for the entire work, and separate bids for excavation and construction, plumbing, heating and ventilation will be received by Charles Atwood, clerk, not later than Wednesday, June 25, at 1:00 p. m., when the bids will be opened. A provision of law requires that bids be accompanied by a certified check for 5 per cent of the bid.

Specification for all work are on file with the clerk.

"Aladdin's Modern Lamp"

By rubbing his magic lamp, Aladdin, famous in fairy tales, summoned a wonderful genie, a spirit of unlimited power, who carried out his every wish. Sparkling palaces gleaming with a thousand lights—a princess for his bride—wealth, luxury, power. Aladdin's Modern Lamp—the fairy tale come true! Today we all have Aladdin's power at our command; such luxury and such inventions for our pleasure and convenience as even Aladdin did not dream of or hope for.

Light, heat, transportation, power. Our public utilities of today have placed millions of horse-power at our command to be summoned at our lightest wish. And more, they have made this vast

power available to us at a cost within the easy reach of everyone.

The most successful people are those who have learned how to put these modern power-slaves to work for them; whose standard of living has been raised; whose pleasures have been increased, labors lightened, energies conserved.

And, as with the individual, so with the community. The outstanding community of today is the one whose people demand and make use of every modern convenience in lighting, heating, transportation and power, who invite public utilities to serve them, and make it attractive for these modern genii to gratify their every wish.

Are we, as individuals of this community, raising our standard of living and keeping our place in the march of progress by making use of the millions of horse-power at our command in

STORY FROM THE START

There's scarcely an ache or pain that Bayer Aspirin won't relieve promptly. It can't remove the cause, but it will relieve the pain! Headaches. Backaches. Neuralgias. Yes, and rheumatism. Read proven directions for many important uses. Genuine Aspirin can't depress the heart. Look for the Bayer cross:

Married Students

One-third of the senior women enrolled in the University of Oklahoma school of home economics are either engaged or married. Some of the married girls do their laboratory work at home, which may or may not be for the good of their husbands.

OLD DOCTOR'S IDEA IS BIG HELP TO ELDERLY PEOPLE

CHAPTER VII—Continued

—13—

"And carry on the maintenance of the estate? I fear not, Lion, I fear not. Business is slothful."

"Humph! Then I'll have you took over our titles. See which lands could be disposed of most readily."

"Sell the Manor fields?" Sophie was overwhelmed. "Why, my dear Lion! Not an acre has gone since—but this is absurd! Do listen to reason!"

"There isn't any reason in the situation," Fellowes replied, between strokes of the razor. "I must have a ship, Nimrod, and that means I must have money. Unless I can come to some terms with Joshua Inglepin."

His lean, bronzed features were contorted in a scowl. "He hates his brother—as I do. I should think two men who hate the same person would make excellent partners."

"I must deplore the bitterness of your spirit," protested the lawyer. "Hated is the cause of infinite suffering and misery."

"You have the cart before the horse," rapped Fellowes. "Misery and suffering inspire hate. No, you needn't argue. I appreciate your motives, but my mind is fast."

Sophie looked uncomfortable.

"At the least," he said hesitantly, "allow me to offer my services as counselor and advisor. I should be delighted to accompany you to the city, and—ah—examine any measures suggested in the light of practical and consistent lawfulness."

"No, it won't do," denied Fellowes. And smiled at the lawyer's chargin'. "This isn't an occasion for lawfulness."

"Dear me, Lion, you are most obstinate," sighed Sophie. "And do I understand it's your purpose to put to sea as a privateer?"

"Yes."

"I shall go with you! I shall accompany you as—marine officer. My military services will have equipped me for the duties, and I am sure a number of my corps will enlist with their captain."

Fellowes' smile became a laugh, almost carefree and hearty.

"You shall come, Nimrod," he promised, "and all the Fencibles you can raise. Now shall we sample Mrs. Rhodes' cooking? 'Twill taste more than good to me, after two years of salt horse."

The widow received them at the foot of the stairs.

"Perked up a mite, ain't ye, square?" she remarked. "Thar's nothin' can master sleep for a 'red man,' I say and after sleep ye want food."

She led the way into the dining room, where Tom and Cuffee—Tom distinctly sheepish—were cleaning the floor and polishing furniture.

"Now, then, Tom," she admonished, "we'll do with the sweepin' a while. Cuffee, ye can come outside with me, and fetch in the plates. I'll make a good walter of ye, yet. After we git the squire settled, ye two can help out at the General Armstrong. I alius wanted a pair o' husky men-folks 'round the place. Not that I need 'em, specially; but it makes ye feel pert jest to have men-folks 'round. And Tom, thar, he's cut out for the heavy work. A honest, well-meanin' man, Tom is." She gave him a pat under which he wiggle ecstatically. "Wantin' a feele trainin', to be sure, but he'll come on. A couple o' months, and he'll earn his keep. I wouldn't wonder."

"I'm sorry, Mrs. Rhodes," Fellowes answered when he could squeeze a word in, "but we are starting for New York as soon as Jeff Riggle can come for us."

She halted in the kitchen door, arms akimbo.

"Noo Yawk, hey? After that Miss Inglepin, I'll be bound."

"After her and her father—and Chater," Fellowes corrected stiffly.

"Humph!" The widow eyed him shrewdly. "Ain't got much use for her, I take it."

He said nothing.

HEADACHE?

"Oh, well, ye ain't the fust man cal'culed—Humph! Mebbe I better keep my mouth shut. I'm all upst. Here I figgered ye'd want the Manor open, and I h'en and sweep and cleaned and brushed and polished 'll my body's crackin'. And ye tell me ye'll shot the place in an hour!"

Fellowes crossed the room, and took one of her red, calloused hands in his.

"Thank you," he said. "It was like you to think of me. And I'll come back again—with Tom and Cuffee—some day."

Mrs. Rhodes blinked her eyes sharply. There was a suspicion of a trillie in each corner.

"Some day! That's what men alius say. They come and ya git yerself used to thar dirty ways—and they up and leave ye, keeless as a cat huntin' a new hearth. But they'll come back—some day," says they Humph! Well, at I can tell ye, Squire Fellowes, is, ye'll be happier when ye stop stillin' 'round killin' folks, and gettin' yerself heat, and I daon't know what else—runnin' after gals ye hate, too. That's the queerest tune I ever hopped to. If ye'd made yer mind up to settle down, all nice and proper, and farm yer land, and raise a family—"

Her voice receded through the kitchen, and Sophie said hastily:

"I think I'll drive on, Lion. I've had my breakfast. And I'll send Riggle up to you. Miranda is—ah—in a beligerent mood, I judge."

Tom Grogan wagged his head as the lawyer left the room. The sailor was slitting, rather uncomfortably, upon one of the spindly-legged mahogany chairs Fellowes' mother had fetched home from England.

"I dunno what hellygrunt is," he said, "unless it's kin to gabby; but whatever it is, messmate, did ye ever see the woman could talk as fast and do as much?"

"She's a fine woman, Tom," smiled Fellowes. "And she seems to be fond of you."

"Fond of me, hey? She's fond o' workin' me."

"Well, you won't see her after to-day."

"And blowed if I don't feel sorry for it," growled Tom. "I like the way she swings a rope's end over me."

He jumped up quickly as the kitchen door swung in, and Mrs. Rhodes' instructions floated through.

"But—if ye ain't got time for no more, Cuffee, the two o' ye can wash up them dishes, and fold up all the furnitely covers, and lay the druggit on the carpet ag'in in that bedroom, and—" "

"Sink me, what a bosun she'd make," Tom whispered awesomely.

CHAPTER VIII

Joshua Inglepin

Jeff Riggle pulled his team to a halt, with a mild: "Whoo-oo-oo, thar!" brandishing his whip in either direction along the crest of the low hills overlooking Brooklyn. As fas as could be seen, the countryside was dotted with work-gangs, laboring at the fortifications, which made ugly scars upon the green of fields and orchards.

"Now, that air's a sight folks come miles to see," he observed. "All the way from Gowanus creek to Wallabout bay. We ain't agoin' to be ketchet like we wore in '70, squire. Look to them ships!"

Fellowes received them at the foot of the stairs.

"Perked up a mite, ain't ye, square?" she remarked. "Thar's nothin' can master sleep for a 'red man,' I say and after sleep ye want food."

She led the way into the dining room, where Tom and Cuffee—Tom distinctly sheepish—were cleaning the floor and polishing furniture.

"Now, then, Tom," she admonished, "we'll do with the sweepin' a while. Cuffee, ye can come outside with me, and fetch in the plates. I'll make a good walter of ye, yet. After we git the squire settled, ye two can help out at the General Armstrong. I alius wanted a pair o' husky men-folks 'round the place. Not that I need 'em, specially; but it makes ye feel pert jest to have men-folks 'round. And Tom, thar, he's cut out for the heavy work. A honest, well-meanin' man, Tom is." She gave him a pat under which he wiggle ecstatically. "Wantin' a feele trainin', to be sure, but he'll come on. A couple o' months, and he'll earn his keep. I wouldn't wonder."

"I'm sorry, Mrs. Rhodes," Fellowes answered when he could squeeze a word in, "but we are starting for New York as soon as Jeff Riggle can come for us."

She halted in the kitchen door, arms akimbo.

"Noo Yawk, hey? After that Miss Inglepin, I'll be bound."

"After her and her father—and Chater," Fellowes corrected stiffly.

"Humph!" The widow eyed him shrewdly. "Ain't got much use for her, I take it."

He said nothing.

Phoenician Dental Art Preserved in the Louvre

The first false teeth, as far as known today, were worn by a woman of Sidon in Phoenicia about 300 B.C., according to Dr. Roy L. Moolde, of Santa Monica, Calif. The Phoenician woman's jaw, with the false teeth, is now preserved in the Louvre, in Paris. The two right incisors are represented by artificial teeth, held in place and bound to each other by gold wire. The wire has been drawn through careful perforations in the artificial teeth. Although the Egyptians pioneered in treatment of many diseased conditions of the body, this sort of dental replacement apparently was never devised by Egyptian physicians. Thousands of mummies, representing 7,000 years of life in Egypt, have been examined, but no clear evidence of

couldn't throw a stone in the river, and not hit a prize; but that's a many privateers git took, themselves, and our ships that put to trade stand seven chinnies into ten o' losin'. So what does it git us, eh? That's what I crave to know."

Fellowes hadn't devised a solution of Jeff's problem by the time the coach dropped them at the ferry-landing. It was a sorry fix for the country to be in, only half-interested to the struggle, and that half, as he knew, mainly concentrated in the southern and frontier states, which had no conception of the government's need of a navy, and were inclined to be jealous of the wealth shipping had brought to the seaboard cities of the north. But perhaps, if men like himself, who had either a sense of conviction or of wrong, fought desperately, determinedly for long enough, the sullen apathy of the shipping interests could be neutralized, and the southerners and backwoodsmen might learn the potentialities the sea held for America. They'd all come to hate the same object. Hate sufficiently, and you could conquer anyone, any difficulty. A lesson he'd learned by bitter experience, and must teach others.

He landed at the foot of Whitehall street as grim of countenance as though he went to meet Collishaw Tom and Cuffee trod close at his heels, bewildered by the throngs of people and the racket of voices and cartwheels grinding on the cobblestones.

In front of the Washington hotel, at the corner of Broad and Pearl streets, Fellowes knifed his charges.

"I am going on to see Mr. Joshua Inglepin," he said. "Do you two await me in the taproom here. And Cuffee, see to it that Tom doesn't get drunk."

"Yuh, Mars' Fellowe!"

"Relyin' on a ignorant digger," fumed Tom. "Tain't fair, messmate. How'd ye know I was squarin' mit to git three sheets in the wind?"

Fellowes turned into Pearl street, crossed Hanover square and so came to Front street, which he traversed as far as a large, double, brick warehouse. Once upon a time, its facade had been pierced by a double door, exactly in the center, but this had been bricked up, so many years ago, that the new bricks had faded almost to the hue of the surrounding wall. In place of the large door, two single ones had been pierced under either gable. Over the nearer one hung the sign:

BENJAMIN INGLEPIN, Exporter and Importer; Sailings to all Ports.

Over the farther sign read:

JOSHUA INGLEPIN, Exporter and Importer; Sailings to the Baltic, the British Isles, Southern Europe and the Indies.

Fellowes entered the farther door. A gray-haired clerk slid off a high stool, and advanced to meet him timorously.

"I am looking for Mr. Inglepin," said Fellowes.

"Mr. Inglepin is out, sir. At the Tontine."

"When will he return?"

"Ah, sir, not until after three, when the board suspends. But if you went around to Wall street now you might find him at leisure. 'Tis the hour of high 'Change,' sir, and all the gentlemen should be taking their noonings."

Fellowes thanked the old man, and went out into Front street, turning the corner into Wall, where the Tontine Coffee house rose above the curving this side of Water. Threadling the groups, still arguing and discussing the trading projects of the morning, he had as little difficulty identifying Joshua Inglepin as the Inglepin warehouse-hands the hostile brothers had divided in half when they broke up their partnership.

Joshua's stout body was clad as neatly as Benjamin's, but after the Democratic fashion; his long-tailed blue coat was short-wristed, and his nether garments were skin-tight, gray pantaloons, terminating in polished half-boots. His gray hair was cut short, and brushed straight back, and his ruddy face was set off by a plump stock and neckerchief. Where Benjamin was sedate, quiet, circumspect, with an elusive eye, Joshua was positive, outspoken, forthright.

Fellowes tapped him on the arm. "I beg your pardon," said the Long Islander. "My name is Lion Fellowes, Mr. Inglepin. I was pressed off your brother's ship True Bounty."

(TO BE CONTINUED)

Odd Penalty Inflicted for Picking Tree Leaf

Every leaf you pluck costs you a piece of your shirt!

This stringent and fantastic penalty was exacted for violating the protection bestowed by an emperor on a tree. The tree was an ancient lime tree that stood in the town of Adelsheim in Baden, Germany, and the Emperor Utrecht decreed its perpetual protection in 1401. So strong was the tradition of this medieval enactment that even at the beginning of the Nineteenth century offenders were still punished for plucking twigs or leaves; although a modification of the original rule, almost as fantastic as the emperor's whimsical decree itself, let offenders off with whole shirts if they would buy ribbons and tie them to the tree.

By 1867, however, the tree had declined to such a ruinous state that it had to be cut down, and for 50 years or so its place stood empty. Now, however, a new lime tree grows where the "Emperor's Tree" once stood.—Kansas City Star Science Service.

She Lost 19 Pounds of Fat in 27 Days

During October a woman in Montauk wrote—"My first bottle of Kruschen Salts lasted almost 4 weeks and during that time I lost 19 pounds of fat—Kruschen is all I claim for it—I feel better than I have for years."

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast.

Do it the little day that takes off the fat!"—Don't miss morning. The Kruschen Salts means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys and bowels are toned up and the pure, fresh blood containing Natura's salts is carried to every organ, gland and tissue of the body and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in the glow of the skin, cheerful vivacity and charming smile.

If you want to lose fat with speed get an 85c bottle of Kruschen Salts from any live druggist anywhere in America with the distinct understanding that you must be satisfied with results or money back.

DOORMATS
VERY MUCH
OUT OF
FASHION

(© by D. J. Walsh.)

JENNIE TURNER finished ironing the eleventh pair of rompers and hung them carefully on the clothes bars along with the others. The small kitchen was suffocatingly hot and the steam rising from the dampened garments had moistened Jennie's fine gray hair and plastered the fabric of her blouse close to her thin arms and shoulders. Her upper lip showed the pallor of overexertion. It was four in the afternoon and she had been up since five.

Her daughter called from the cool veranda where she sat sewing and watching Junior take his afternoon nap in the porch swing. "Mother!" Jennie obeyed. She appeared, fluttering, in the doorway.

A woman sat on the steps with a basket beside her. She was small and stout and her attitude had the slump of fatigue and discouragement.

"Why, Imogene!" Jennie said.

"I'm going up on the hill for a picnic supper and I want you to go, too," Mrs. Wilcox said.

"Why—" Jennie fluttered still more. She glanced at the downcast face of her large, healthily colored daughter. "What do you think, Julia?" she pleaded.

"Have you got the ironing done?"

"All done. And there's potato and meat to warm up for supper."

"Well, go along if you want to."

"You needn't do a thing. I've got everything here in the basket," Mrs. Wilcox said.

A look of pleasure had arisen to Jennie's gentle face. She slipped off her apron and soon was ready.

Silently the two women toiled up the hill road until they came to a little grove and a rock much frequented by picnickers. It was already occupied. A woman sat with her back to them gazing at the view.

"Why?" Jennie gave a little cry. "I believe it's Miss Packer."

The woman heard and turned to look at them. Surprise invested her large dark face.

"You're welcome," she said. "I don't want only enough ground to sit on. I'm dead tired."

"You look it." Jennie sank down upon a stone.

"So do you," Miss Packer retorted. "As for you, Imogene, you look not only done out but sick."

"It's that pain in my shoulder again," Mrs. Wilcox sighed, finding a seat herself. "But I shouldn't be here if Angelina and Robert and the kids hadn't gone to Riverdale for the day. After I got the work done up I decided I'd come up here and bring my supper. I haven't been here before in—*I don't know when!*"

"Nor I," Miss Packer said. "That's why I'm here now. The whole crew at my house is going to the church supper. My niece has company—a couple of girls from Riverdale. I didn't want anything to eat, but I did want a little rest and quiet—that view is beautiful, isn't it?"

"Grand," Jennie gazed wistfully at the array of blue mountains in the distance. Imogene's eyes, dwelling upon the same expanse, were greedy. She devoured it as one possessed of a great hunger who didn't expect soon to be filled again.

Some time passed while the three women sat there, their tired faces turned to the blossoming west.

Jennie Turner lived with her daughter, for whom she did the work of a servant, although without any pay but her food and shelter. Imogene Wilcox lived with her son's family and similarly paid her way by working all that she was able. Miss Packer was independent; for she had means of her own, but she lived with her married sister and was no better off than the other two.

"Well," Imogene said, suddenly turning to her basket, "I guess we'll have a bit of supper. You're invited, Miss Packer. There's plenty for the three of us."

The food and the quiet heartened the three women.

"It has just occurred to me," Miss Packer said, "that doormats have gone out of fashion."

"Doormats!" Jennie laughed a little. "What do you mean?"

"I mean that we are doormats, the three of us, and we are behind the times." Miss Packer's dark face was grim. "Here am I so tired I can't breathe waiting on my sister's company, while I've got money enough to take care of me anywhere. Alice is perfectly able to hire somebody to do all I do, but so long as I give of my services she will accept them."

"Doormats!" murmured Imogene. "Just don't get your idea."

"Doormats," said Miss Packer, "are things that other folks wipe their feet on. I'm awful tired of living it myself. You are wearing yourself out carrying that great, heavy Junior around."

Jennie flushed and tears came to her eyes. She knew.

"And you, Imogene," went on Miss Packer, "are carrying round a pain in your shoulder just because your poor right arm is never still a minute. Oh, what's the use?"

She got up, walked a few steps and stood in a contemplative attitude.

"Right here is where I am going to build my bungalow," she said. "I can buy an acre of ground from Mr. Arnold; he's been trying to sell this place a long time. There will be a kitchen and a living room and three bedrooms, and a porch that faces the sunset and another porch toward the hill where we can eat our meals—"

"We?" gasped Jennie.

"We three. I invite you and Imogene to come and live with me. You, Jennie, can raise raspberries and hollyhocks; Imogene, you can make fruitcake and angel food for the women's exchange. As for me, I—"she laughed almost gayly—"I'll cook a new kind of stew every day. I love stews, and my sister won't have one on the table. Otherwise, I'll loaf and invite my soul."

"Do you mean it?" Imogene inquired.

"You will see. And, remember, no doormats allowed."

At that they all laughed like girls. The first snow of winter fell upon the secure roof of the hillside bungalow, wherein three women lived in increasing happiness and joy.

Ants Not Only Gather but Even Grow Grain

Did you know that among these wonderful insects called "people" by Solomon, there are some who are expert farmers?

These ants—there are two species—collect the seeds of various plants in autumn and store them in granaries underground. Some special treatment by the ants hinders the germination of the seeds, though they are in a situation favorable to sprouting, and when the ants are prevented from having access to their granaries, germination takes place almost at once. Nothing is done to sterilize the seeds, for when it suits their purpose a portion of the stock is allowed to sprout, but only under control, as a master sprouts his barley, sufficiently to cause the transformation of the seed's starch into sugar. Root and stem are then bitten off and the seeds are dried in the sun for use as a food.

Several Indian ants have similar habits, but the go-ahead agricultural ants of Texas and Florida have improved upon the ancient methods of the Old-world harvester; the Americans not only harvest grain, but grow it first. On an area of about four yards in diameter surrounding the main entrance of their nest they exterminate with their jaws every plant other than the so-called ant rice, which thus becomes a pure crop, and, in the absence of all competition, flourishes. These ants have also a clear idea of the importance of facilitating transport by making broad, straight roads through the bush and keeping them clear of encroaching weeds. Some of their grain stores are said to be at a depth of 15 feet below the surface, apparently in order that seeds shall not be subject to the influence that normally brings about germination when they wish. These agricultural ants have two classes of workers—major and minor—the majors conspicuous owing to their big heads and capable jaws, with which they crack the hard grain for general consumption.—P. B. Prior in *Our Dumb Animals*.

About All

Jefferson Bascom, mining expert, was talking to a New York reporter about dude ranches. He said:

"Some of these places are swell joints—full evening dress every night, latest Paris frocks and high jinks." Mr. Bascom laughed reminiscently. "I remember a retired officer, Colonel Dash," he continued, "who disapproved of the high jinks and daring toilettes at a certain dude ranch where, one night, a fearless New York girl in a beautiful evening gown climbed on to a wild bronco and was immediately unsaddled.

"The joke is on her," I said to Colonel Dash.

"It is," he replied with a sneer. "And that is about all, too."—Detroit Free Press.

Trained

During the celebration that attended the publication of his one hundredth novel, E. Phillips Oppenheim said:

"I inherited what talents I possess from my father, who, although he never published anything, was a very clever story teller. He used to have each of us children write a story to be read aloud at Christmas, and as we were never allowed to vote for our own stories he always won the prize."

"That is, until one Christmas, when, at the age of thirteen, I was the winner. I shall never forget my father's astonishment or how very pleased I was with myself."

Canals of Bruges

The imaginative traveler will find new delights in the scenery of Bruges as seen from its canals. From a boat in these calm waters new aspects of the old Belgian city can be discovered. The waters reflect their shores so beautifully that it is no exaggeration to say that on them one sees every sight twice—towers, houses, trees, and cool arches of old bridges. The view from beneath the old Bridge of the Lions, built in 1027, frames the vista of nearby gables and the distant tower of St. Jacques in the soft green trees. Swans float in the twilight and add much to the idyllic quiet of the scene.

Artists and Haywire

By HAROLD F. BURT

(Copyright)

"THE big stores are absolutely justified in the stand they have taken—refusing to place a single order for mechanical displays to any company in the country—claiming that all units and figures thus far have been 'haywire,' a jumble of motors, gears, levers and wires. It's all true."

Jim Collins, the usually genial sales manager and part owner of De Luxe Displays, seriously addressed the other members of the firm, and, frowning, continued: "Unless they have a change of heart before the time of Christmas deliveries, or we can devise a foolproof mechanical action acceptable to them, we are done. We must come through inside of two weeks with acceptable stuff."

The other members of the firm were: Wayne Duvall, head artist; Dave King, who handled the mechanical end of the business; Frank Weber of the woodworking shop; and Mabel Taylor, the assistant artist.

Dave finally broke the spell. "The fault is, of course, up to me to correct, if possible. I want just two weeks' time to devise a new kind of mechanical power. If I fail, you are allow me to resign."

Mabel, familiarly known around the studios as "Mibs," sympathetically placed her hand on Dave's arm and said gently: "Oh, Dave, please don't take it so hard."

Dave thanked her mutely with his serious brown eyes, for Dave was in love with Mabel but had not as yet gained the courage to tell her.

To Dave the present development was not entirely a new thought. He had been developing the idea months before. He worked out a small rotary timed compression pump to which could be attached any number of diaphragm units. They could be connected to this pump by rubber tubing or copper pipe, making it possible to move arms, legs, heads—anything at any give time, at any desired speed.

Dave completed two brownie figures, one dissected and cut away to show the construction, the other fully assembled, a full day before the time limit set by himself.

Jim at once called the store buyers in town. They came next day, accompanied by a reputable mechanical engineer who, after inspecting Dave's work, in open admiration declared it to be the best thing of its kind for movable figures he had ever seen.

To say that De Luxe Displays were beside themselves with joy is to put it mildly. The department stores reinstated all canceled orders; all help was recalled and the studios hummed.

The days following were happy ones for Dave; his stock had gone up considerably in Mabel's eyes. Yet he spoke no words of love. For Mabel earned a sizable salary in addition to teaching an art class three nights a week. Well—perhaps he could induce her to give it up—yet he felt he had no right to ask her to do that.

Then one day the studio received a bombshell in the form of a court injunction restraining them from using the pneumatic power application. World Studios, owned by Jules Le Mond, claimed priority. De Luxe Displays knew Le Mond to be an unscrupulous business adversary, but never dreamed that he would try to shut them out.

Several days' investigation brought out only one point of importance. Dave must absolutely prove priority. It looked hopeless. Dave had confided in no one except the man working with him until his work was completed, and it was almost certain that Le Mond would claim his idea originated not later than two days after the stores had canceled the orders.

At the hearing Le Mond produced mechanical experts—who he had bribed—who stated they were hired to work out the idea three days after the cancellation of orders on the 25th, which established the priority date of September 28 for Le Mond.

Toward the end of the testimony Mabel slipped in. She had quietly and mysteriously disappeared an hour before. Edging herself up to Dave's attorney, she spoke to him rapidly in low tones.

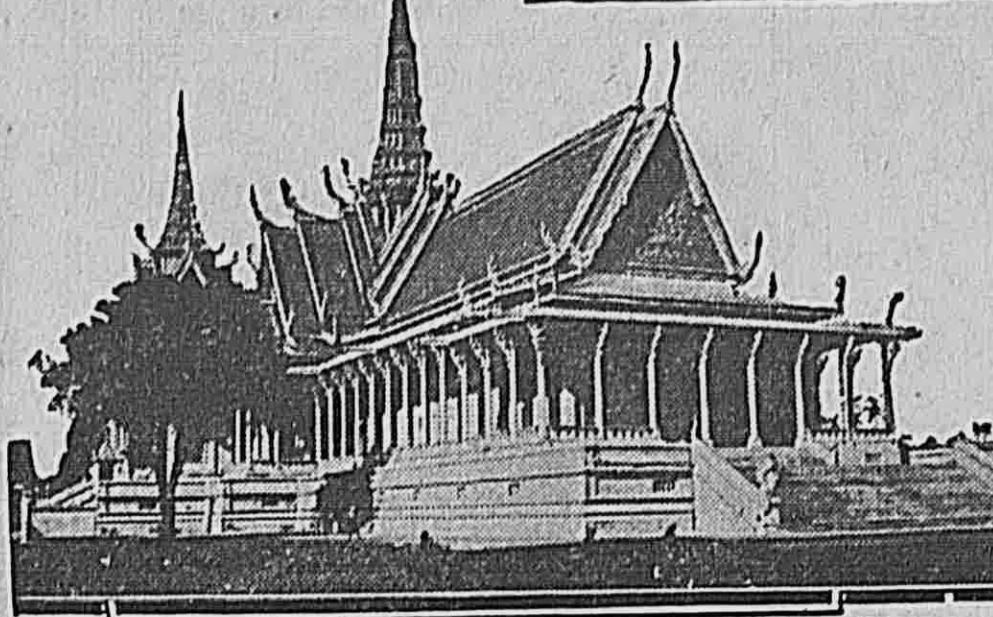

Dave's attorney then announced that he had more evidence to present and handed a number of sketches to the judge.

"Your Honor," said Mabel, "I am an assistant artist at the De Luxe studios, and also teach a class in drawing three nights a week. One night, just before leaving the studios, I remembered the class was to have a lesson in object drawing, and I searched around the studio for some object for my pupils to sketch. I walked into the mechanical department, as I have often done in a similar quest, saw an arm of a brownie with a lever and a number of water-like disks attached to it, and took it to class. I returned the next morning and forgot the incident until an hour ago. I rushed home, looked through the class sketches and selected several to bring here. On each is the pupil's name, address, and the date—September 27."

The Judge examined the sketches, looked at Le Mond and scowled. "You seem to have been a day late with your idea. The injunction against De Luxe Displays is dissolved."

Every one vanished, or so it seemed, as Dave held Mabel in his arms and whispered: "Mibs, darling artists are the most wonderful people in the world."

FRENCH INDO-CHINA

Throne Room Building of King of Cambodia at Phnom Penh.

(Prepared by the National Geographic Society, Washington, D. C.)

FRANCE has recently found it necessary to send a punitive expedition across the border that lies between Indo-China and China because of the activities of Chinese Communists along the frontier.

The expedition operated from Tongking, northernmost of the French coastal colonies, but the step was taken as a protection for the whole of French Indo-China, that stretches from the southeastern corner of Asia some 800 miles to the north and northwestward. It is a sizable empire which France controls there in Asia, either by outright possession or protectorate—265,000 square miles, an area almost exactly the size of the state of Texas. The region is, however, much closer to the equator than Texas, occupying a position corresponding to that of southern Mexico and Central America. Thus the French Asiatic empire is wholly within the tropics and in a region of heavy rainfall.

The units of French Asia are Cochinchina, in the extreme south; Cambodia, in the southwest; Annam, stretching along most of the eastern coast; Laos, inland and to the north-west; and Tongking, filling the north-eastern end of the elongated territory and extending from the coast inland for 200 miles.

Annam is less completely under French control, officially, than any of the other states with which it is associated in the territorial group known as French Indo-China. It has its own emperor and is listed as a protectorate. But Annam and the twelve million people of Annamese blood really constitute the chief factor in this region of French influence. In few places are the old forms of oriental magnificence maintained as completely as in the Imperial establishment at Hue, the capital of Annam. Until recently the palace was forbIDDEN ground, and it is still far from easy to obtain access.

Inside the palace walls is a richness and an elaborateness seldom encountered outside fairy tales and the settings of extravagant stage presentations. There are picturesque gardens; paved courts, where on occasion the ten thousand mandarins of Annam strike their foreheads in unison on the ground before the emperor; dim corridors of countless columns with their huge perfume burners sending up continual clouds of incense; and exquisite rooms of intricately wrought ceramics and gold and silver. Opening into the emperor's state rooms is the great Golden Door, through which, in addition to the sovereign, only the extraordinary ambassadors may pass.

Lavish festivals and displays take place within this fairland of luxury. The most charming and characteristic, perhaps, are the children's balls, in which scores of dainty, costumed youngsters go through elaborate steps and postures with bright fans in their hands and a lighted colored lantern attached to each youthful shoulder.

Hue Itself Not Beautiful.

Outside the palace enclosure Hue is less appealing: The "metropolitan area" of the city is in large part a collection of native villages clustered in the shadow of the great palace-citadel walls. Across the river is the French residency with its Gallic western atmosphere. For a long time Hue was little known, and as the seat of an important country its size was exaggerated. Its population is only about 60,000.

The town is in a tropical region in a latitude corresponding to the southern extremity of Mexico. It lies near the mid-point of the long double-curving coast of French Indo-China, a few miles from the sea on the Hue river. Built on a flat, the city itself has little beauty of form or setting; but it would be difficult to find in the tropics more beautiful environs than it possesses. Only a few miles away rise the mountains from which the Hue river flows, and even closer are lower wooded hills and valleys. Numerous villages are all but hidden in a mantle of green: palms, bamboos, and scores of tropical vines and shrubs. Carefully kept paddy fields alternate with wild regions of underbrush, and scattered about the countryside are innumerable graceful pagodas.

The most remarkable feature of Hue are the famous tombs of the kings, which lie in the charming pine and bamboo-covered valleys and hills a few miles from the city—true cities of the dead, far more attractive in setting than that of the living. For each departed ruler of the past several centuries a large area has been developed as a resting place and memorial

HISTORY'S MYSTERIES

Unsolved Riddles That Still Puzzle Authorities Here and Abroad

The Arms of the Venus di Milo
THAT the Venus di Milo, undoubtedly the most beautiful statue in the world, once had arms is apparent from the most superficial glance, but in what position they were sculptured and what became of them are mysteries which take first rank among the secrets of the art world.

Some experts, basing their statements upon accurate measurements of the stumps of the missing arms and the manner in which the muscles appear along the back of the statue, claim that the right arm was gracefully posed and attached to the draperies around the waist, while the left arm was raised at the shoulder and bent at the elbow—suppositions which are supported by the meager reports concerning the statue when it was first discovered on the Island of Melos in the Mediterranean.

But the first of the mysteries concerning the origin of the statue. Who was the sculptor? It is doubtful if this will ever be revealed for, while it has evidently been buried for some 2,000 years and it bears traces of the characteristic handiwork of any one of several famous Greek sculptors, the identity of the man who made it will remain forever a secret unless some unsuspected evidence is discovered, throwing light upon this question.

The notable structures and gardens extend from the end of the Eighteenth century to the present. The earlier of these are exceedingly elaborate and have much in them to remind one of Fontainebleau and Versailles.

Cambodia's Capital.

Strikingly different from Hue is Phnom Penh, capital of
